The phone is equipped with a large set of specifications that makes it the best bang for the dollar. The Samsung Galaxy M30 has a beautiful 6.4-inch display that is Full HD. The high aspect ratio of the phone makes him feel very good in his hand. Phones receive juice from its EXYNOS OCTA-CORE processor that is combined with 4 GB of RAM. It also has an integrated 64GB of internal memory that can be further expanded through a microSD card. The phone runs the last Android 9.0 cake out of the box and has all the sensors required on the phone as the proximity and the light sensors. The fingerprint scanner on the back of the camera, back of the camera configuration on the back of the camera, back of the camera, back of the camera configuration on the back of the camera, back of the camera, back of the camera configuration on the back of the camera, click Large images in the normal daylight. Even the bright night photography on the phone is a winner in all departments and has a price with a reasonable price bracket that provides a seamless experience to the user. This review is useful? (33) (3) Reply Dishika Kothari (April 14, 2019) On Gadget 360 I recommend Oh my bontà The phone is so amazing. I'm just in love with the display. Instagram stories, movies, YouTube videos seem so amazing and feels great to look at this fantastic phone. The camera is so amazing with wonderful features. Only binge watching netflix in my samsung galaxy m30 whole day but the battery is so incredible is not so surprising. And the phone is so fast. Light to wear. It doesn't feel heavy like a stone. One of the best phone even for a day. This review is useful? (17) (1) Reply Mountains Gupta (26) April 2019) On Gadgets 360 recommends the best phone in 15000 range. Another good launch of Samsung for limited budget users. This review is useful? (9) (2) Reply Rahul Nair (April 10, 2019) On Gadget 360 Recommend Samsung has nailed this market segment with the start of the Smartphone M series, my last choice that is the M30 brings the best segment as the Super amoled display, triple cameras, etc. The display is at the words, this amolate display has a great contrast, deep blacks, really saturated colors and popping which is the best ever to consume media like Netflix, YouTube, etc. And the display is rather huge even 6.4 inches but thanks to its minimum and infinite-u tach corn bags, the general imprint is guite useful! The M30 has a giant 5000 mAh battery at 5000 mAh which is more than plentiful for the day and use of a vehicle and yet the device is reasonably elegant and ergonomic. And this time around Samsung he went with a gradient who looks very attractive in person. The back of the device also houses three cameras! The ultra wide angle lens is again the segment before and is really really convenient. Cameras in general Fantastic with a good dynamic range when the HDR is turned on and the selfie camera has a lot of details and still a good dynamic range with excellent skin tones. Samsung M30 has rather impressive performance and is exactly why it is very fun to play pubg and other games with heavy graphics, and the device never exhausts steam because of the 6 gigabytes of LPDR4 RAM. To summarize, the Samsung Galaxy M30 has has Right ingredients for a perfect smart phone for us millennials i.e. Exceptional display, equal battery, beautiful cameras and powerful performance for the price I paid. (26) (20) Response Gabrielle d'Lima (10 April 2019) On Gadget 360 the new Samsung Galaxy M30 is packed with different exciting features. To begin with, it is a power of lasting battery comprising the fast 15 watt charger, loads the 5000 mAh battery which is more than adequate for a while. The Innifinty Super AMOLED display offers an immersive viewing experience with clear images. The 13 megapixel primary camera with the two ultra wide 5 megapixel cameras captures the entire image in great detail and is supported with a rapid live focus. At an extremely convenient price this phone offers various innovative and exceptional features. In addition to its immense internal memory of 128 GB has the expandable storage of 512 GB. This phone is powered by the new Processor New 1.8 GHz Exynos Octa Core Core. The gradient body of the phone that is available both on a blue and black level. This phone is extremely light. The phone RAM 6 GB makes the game an extraordinary experience. Games like PUBG and need for speed works incredible on this phone. The phone is also really useful. Overall, I highly recommend the purchase of this phone to everyone. This review is useful? (3) Reply Aidan DSilva (April 9, 2019) On the 360 gadgets recommend the clarity of the screen very good, it looks very clean and captivating, the camera is very good, Light Light photography is excellent. The fingerprint sensor is fast and has a good speed that helps me pass from the app smooth. The game on this phone is fantastic and is not late during the game like Pubg and NFS. The 5000 mAh battery almost ever helps me see the clearest images and allows me to watch high definition movies. The Dolby Digital function helps me listen to music in a high quality sound with a beautiful display V II the phone looks better than anyone else. I love it. This review is useful? (3) Reply Craig Rodrigues (April 10, 2019) On Gadget 360 recommends the best phone in the market right now you can be useful this review? (6) (4) Response Manish Katyal (Apr 14, 2019) on Gadget 360 Recommend the phone provides a great chipset and a 5000 mAh battery $\tilde{A}^{-}A_{c}A^{+}A_{c}A^{$ professional photography but it's all captured in my smartphone. Even the phone's RAM is perfect, which makes me play my favorite game - PubG without any delay and beat all my friend's records. I've never seen a cell phone like this in this budget range of less than 18,000. Good job samsung !! :) This review is useful? (1) Reply Viraj Rane (April 14, 2019) On Gadget 360 recommends using Samsung phones for a long time and M30 is by far one of the most beautiful phone. It has a triple camera system that helps concentrate and incredible shots. This phone is very light, so it's easy and comfortable to wear and because of mine hectic I don't have much time to load the phone, but m30 has a super battery of 5000 mAh and it comes with turbo charger that gives more charging in less time, it is the type-c which is good for the medium-range phone.
