Majima tries to push Kiryu into a fight to test his legendary reputation within the Clan, but Kiryu refuses. She then goes to her favorite bar, Serena, and spends the rest of the night drinking with the bar owner, Reina, and her childhood friends Akira Nishikiyama and Yumi Sawamura. The next day, during a meeting with the foster father and superior of the Dojima family, Shintaro Kazama, Kiryu receives a call from Shinji to warn him that Yumi has been kidnapped by criminals working for Dojima, Sohei Dojima, and that Nishiki has already gone to try to rescue her. Kiryu runs to the Patriarch's office, where he finds Nishiki standing over Dojima's corpse, who he had just shot after attempting to sexually assault Yumi. Since Nishiki's seriously ill sister Yuko needs her brother to take care of her, Kiryu tells Nishiki to leave with Yumi, as she will take the blame for the murder. Despite strong objections

From Nishiki, Kiryu is adamant and Nishiki finally agrees. A few minutes later, the police arrive and arrest Kiryu for the crime. After questioning Kiryu, Makoto Date, The detective in charge of the investigation doesn't believe Kiryu's murder, but he's forced by his superiors to let it go and charge him anyway. Kiryu is sentenced to 15 years in prison and is expelled from the Tojo Clan for his boss. While in prison, Kiryu learns from Shinji that Yumi disappeared after Dojima's murder and no one was able to find CH. 2 - Ten years later [1] In 2005, the best Patriarchs of Tojo Clan gather for an emergency meeting with the president of the Clan Masaru Evening, called by Akira Nishikiyama. From the Assassination of Dojima, Kazama and Nishiki they both established its independent yakuza groups, the Kazama family and the Nishikiyama family, which have become two of the largest of the clan. During the meeting, Nishiki reveals that an informant told him that the Cash Reserves of 10 billion yen of tojo were stolen from their bank safe, much to the fury of most of the other patriarchs, in particular Futoshi Shimano of the family Shimano. The President Evening confirms that the robbery has taken place, but ensures the patriarchs that the central office of the clan deals with the matter, before updating the meeting. A few days later, Kiryu is released soon from the prison due to good behavior. He receives a letter from Kazama, telling him to go to the Stardust Club of Kamurocho, where he will organize himself to meet him without the tojo clan discover him. Kiryu goes to the club and meet with his owner, Kazuki, and his right Yakuza-Hat, Yuya. However, Kazuki tells Kiryu that his meeting with Kazama will have to be delayed, since the Tojo Clan was thrown into tumult from theft revelation of their reserves and the assassination of President Evening, which was shot at night previous. Shortly afterwards, the hooligans of the Shimano family present himself and try to shake the club for protection money, resulting in fight between them and Kiryu. The fight is stopped upon arrival of a Shinji Tanaka that takes away the thugs. Shinji tells Kiryu what happened in the clan while it was via: the three largest groups of the clan are now the Kazama family, the Shimano family and the Nishikiyama family; The latter of which Shinji is now part. Although this, Shinji is still faithful to Kazama and worked as a double-agent He's inside Nishiki's organization. Shinji also warns that Nishiki is not the same person who was before Kiryu was He becomes cold and ruthless in his quest for power. After Shinji insists that Kazama will be tied to organizing the succession of Sera's president for the near future, Kiryu convinces him to help him sneak into Sera's funeral the following day so that he can meet secretly with Kazama. On the day of Sera's funeral, Kiryu attends the ceremony at the headquarters of Tojo Clan Incognito as Mourner. While meeting Shinji at the entrance of the building's back, he is attacked by a man of the Omi Alliance, rivals based on Osaka of Tojo, who claim he was acting on orders from Nishiki. Kiryu easily defeats the thug and proceeds to the building. Shinji takes Kiryu to an isolated meeting room and then retrieves Patriarch Kazama. Both men meet after ten years apart and Patriarch Kazama tells Kiryu that he has important information about Yumi's disappearance. However, before he can explain himself, Kazama is suddenly turned by a sniper. The firearm attracts the attention of Patriarch Shimano and many of his Goons, who recognize Kiryu and attack him after erroneously concluding that he shot Kazama. Kiryu escapes by jumping out of a window and fights through several guards to get to the exit of the headquarters, where he is in front of Shimano. Kiryu Dues the Patriarch manages to defeat him before escaping the front gate. While being chased down the street by Yakuza, Kiryu is rescued by the date detective, the lead investigator in the Dojima murder case from ten years back, who shows up in a car and tells Kiryu to get in before driving them both away from the scene. Mizuki worked in Serena with Reina for several years, hoping that eventually Yumi would arrive, but recently she left and decided to open her bar elsewhere in Tokyo. Reina believes that Mizuki may have learned something new about Yumi, but she has not been able to get in touch with her to verify it. On Reina's suggestion, Kiryu goes to a nearby bar whose owner might know about Mizuki's new factory, only to find the owner of the place and all his clients killed. At the scene of the murder, he also finds a frightened little girl named Haruka. Kiryu takes Haruka away from the scene and asks her where her parents are. Haruka says she is an orphan and has fled the orphanage to look for her mother, who owns a bar in Kamurocho. After the couple rescued a sick puppy from a gang of hoodlums, Haruka passes through exhaustion and Kiryu takes her to Serena to rest. Kiryu successfully accepts and defeats three opponents in the Colosseum. To satisfy his part of the deal, Florist tells Kiryu that a few days earlier, a strange woman came to him asking for information about a girl named Haruka. He is convinced that the woman is Yumi or Mizuki, which means that, despite hiding after robbing the Tojo bank, at least one of the women is still in Tokyo. The couple's conversation was interrupted when Florist received news from his escort that a mistreated Data detective arrived at the park entrance. Data tells Kiryu that while he and Haruka were coming to the park, they were attacked by criminals working for Captain Goro Majima of the Shimano family, who beat him and kidnapped Haruka. With the help of the Florist, Kiryu discovers that Majima's companions brought Haruka to the Yoshida Batting Center and immediately after them he leaves. Ch.7 - Dragon and Carp[1] A few days later, a woman's body is in Tokyo Bay and, from the tattoo on her chest, Data and Kiryu understand that it is Mizuki. Kiryu recognizes that the tattoo was made by his old tattooist, Utabori, and goes to him. The tattooist says the design was his own, but he didn't make that tattoo, rather an imitator had. While Kiryu is at the tattoo shop, she receives a call from Nishiki, who somehow knew where she was. Nishiki tells Kiryu to meet him the next night in Serena, so they can talk. Kiryu and Data don't tell Haruka that her mother died, but she realizes that something is wrong and asks for explanations. When Kiryu refuses to tell him, the two have quarreled and Haruka leaves, leaving behind his aunt Yumi's addiction. Kiryu chases Haruka, but cannot find her. However, he soon receives a message from an unknown man who tells him that he kidnapped Haruka and asks for independence in return. Kiryu and Date go to the meeting organized in the Stardust Club and face the mysterious Haruka kidnapper and his friends, with the exchange eventually developed in a fight. Kiryu defeats the strange men and tries to question their boss, but is killed by one of his men before he escapes. After the emotion is over, Kiryu sadly told Haruka about his mother's death. Despite her pain, Haruka asks to continue helping Kiryu find Yumi, as she's the only family left her. Before his meeting, Kiryu leaves Haruka with Date and Florist in West Park to make sure he's safe. Later, Kiryu meets with Nishiki in Serena, with Reinaas mediator. Nishiki tells Kiryu it was his men He killed Mizuki while questioning her about the money's whereabouts, but he insists he killed the men responsible for his death in retaliation. He asks Kiryu to give him Haruka's addition, as he wants to recover the ten billion yen and use it to become the next president of the Tojo Clan. However, when Nishiki also admits that he was the one who shot Kazama during Sera's funeral, Kiryu hits him and the negotiation between his former friends collapses. Nishiki leaves the bar and sends some of his men to attack his brother, but Kiryu defeats them and leaves. Ch. 8 - The Schemed[1] Kiryu returns to West Park only to discover that the place has been ransacked by gang members and Haruka has been kidnapped. The Florist explains that the attackers were members of Kamurocho's three black bands; Small-time criminals working for different yakuza groups. Kiryu follows and beats the leaders of the Blue Z and then the White Edge before discovering that the third gang, the Bloody Eye, were responsible for Haruka's abduction. Kiryu finds Bloody Eye leaders Big Akai and Little Akai at Club Deborah and fights them to reveal what they did to Haruka. Apparently, they were paid to kidnap her by Lau Ka Long, the leader of the Yokohama Snake Flower Triad, with whom Kiryu has a turbulent history. Kiryu transmits this to Data and the couple left for Yokohama to rescue Haruka. Elsewhere, Patriarch Shimano has a meeting with Lau, since the two are working together. Shimano intends to use the kidnapped Haruka to force Yumi to give him the ten billion yen, which he then shares with Lau and his other accomplice: Yukio Terada, the head of the Omi Alliance headquarters, who supports Shimano's claim to the presidency of Tojo in exchange for the Tojo becoming a subsidiary of the Omi Alliance. The Chinese gangster tells Kiryu that he has already given the pendant to Nishikiyama, since Shimano was trying to cheat him, but that he intends to keep Haruka, since someone else paid him to deliver it to them. Kiryu defeats Lau after a long duel, but several police officers led by former Data student, Junichi Sudo, break into the restaurant and arrest him for Haruka's kidnapping. Date asks South to release Kiryu, because 0 No one has reported Haruka's abduction, but Sudo insists he has received orders from his superiors to arrest Kiryu and keep him prisoner. Akira, Data takes Haruka from government custody and frees Kiryu from prison, against the orders of his bosses. On his way back to Tokyo, Data tells Kiryu that he was investigating the mysterious men who kidnapped Haruka at the Stardust Club. He suspects that they are part of the MIA, a secret government agency led by a politician named Kyohel Jingu, and that they are the ones who ordered the South to arrest Kiryu as well. Data also tells Haruka that the autopsy of the woman found in Tokyo Bay revealed that she was not Mizuki, but rather a strange woman who had copied her tattoo drawing and that Nishiki's henchmen had exchanged for her. Suddenly, Snake Flower's thugs start attacking Data's car, causing a chase and a shootout in which the trio barely survives. Cap[1] Kiryu receives a message from Shinji telling him that Nishiki has an informant close to Kiryu who provides information. Kiryu turns to the florist and, with his surveillance footage, confirms his suspicion that the informant was Reina, who had always been in love with Nishiki and for this he betrayed Kiryu. After returning to Serena to face Reina, Kiryu and Date find the place in with a note from Reina confessing to her betrayal and saying she wants to make amends. Kiryu receives a call from a Harris Shinji, who tells him that Reina called him and Nishiki called Serena and then tried to shoot Nishiki. He asks Kiryu for help, since he and Reina are now on the run through Kamurocho, hiding from Nishiki assassins he has sent for them. Kiryu manages to track down the building where his friends were hiding but, when he arrives, Nishikiyama Family hitman Kazuto Arase has already killed Reina and seriously wounded Shinji. A furious Kiryu attacks Arabs and his men, striking them all in the next fight. After killing the assassins, Kiryu comforts a dying Shinji, who apologizes for his failure and says that Kiryu can find where Kazama has been hiding by talking to his girlfriend, Akemi. However, Shinji succumbs to her wounds before he can explain how to contact her. Ch. 11 - Honor and Humanity[1] After reorganizing with his allies, the Florist tells Kiryu that Shinji attended a soapland called Shangri-La, whose number one girl is Akemi. However, getting into the soapland requires either to pay a million yen or to have a ride from someone who is already a member. To obtain the necessary passport, Kiryu ends up obtaining a fake passport for the girlfriend of a regular member, which in turn involves rescuing a passport forger from Snake Flower. Triad hit men who wanted to kill her for taking away their clientele. After obtaining the passport, the Forger tells Kiryu that he had already heard of him from his adoptive father, Kazama, who had hired her to create an entire fake identity five years earlier. After gaining access to Shangri-La, Kiryu and Haruka meet Akemi, and Kiryu tells her about Shinji's death. Despite his pain, Akemi tells Kiryu that Kazama is hiding with no one but Terada of the Omi Alliance, who only pretended to work with Shimano to spy on him for Kazama. Omi's boss keeps Kazama hidden in his personal yacht in Shibaura Wharf, akemi tells kiryu that shinji said that nishiki is not only justFor the 10 billion but also for the will of the President Evening, since the Third President has appointed his successor in it. However, the conversation is interrupted when I Goro Majima and many of him crashed a dump-truck through the main gate of Shangri-la. Majima survived his dagger injury and now he wants a revenge against Kiryu. After beating Majima, Kiryu and Haruka started again. Ch. 12-La Meeting [1] Kiryu and Haruka Go to Shibaura Wharf, where Terada welcomes them on board the yacht. After having seen him, Haruka recognizes Terada as the man who freed him when Majima had taken the prisoner of her and who told her the value of her pendant. Inside the boat, Kazama greets Kiryu and begins to explain the truth of everything that he is overlooked. Kazama says that after the Attack of Dojima, Yumi lost her memories and fled from the hospital. Kazama in the end has traced her but, having determined that Nishiki was the true killer of Dojima and therefore don't trust him more than him, he decided to keep Yumi hidden. Within a couple of months, Amnesiac Yumi met Kyohel Jingu, director of the Eumo, who did business with Kazama and President Evening, and the two started to go out. Within a year, the couple had a daughter together, but immediately afterwards, Jingu was offered a marriage combined with the daughter of the Prime Minister, so he abandoned Yumi and their daughter to continue his career. Over the next two years, Jingu would become ruthless and profoundly ambitious in his search for political power. When a journalist tried to blackmail it with the information he had obtained a daughter outside from Wedlock, he killed the journalist and then ordered the President Evening to kill Yumi and his daughter to keep the truth hidden, Jingu had the power to do so because he had deceived evening and appropriate the Cash Reserves of 10 billion yen Clan in an account under his control through a money laundering scheme. Even though Sera initially tried to have Yumi killed, Kazama stopped the killer and then talked about Sera after following. After Kiryu took his memories. To avoid further attacks by Jingu's thieves, Kazama created the false identity of "Mizuki", Yumi's sister, so she could live under an alias. As it turns out, Mizuki was Yumi forever, and so Haruka is the daughter of Yumi and Jingu, who had to be placed in an orphanage for his safety. Yumi lived under Mizuki's alias for five years, but while Jingu became more powerful, he became a bigger threat to her and Tojo. Because of this, Kazama, Yumi and Sera robbed the time containing the money and hid it, hoping to rob Jingu of his influence. However, the plan was twisted when Nishiki had voice of the robbery and revealed it to the rest of the clan. The conversation is interrupted when Terada's yacht is attacked by the Shimano family. Shimano had become suspicious of Terada and had followed him, correctly deducing that he was secretly working with Kazama. Shimano's forces initially overwhelmed Kiryu and Terada's men, but just as the struggle seems lost, Kazama's right-hand man Osamu Kashiwagi arrives with reinforcements, leading to a gigantic battle between the Kazama family and the Shimano family. Ultimately, Shimano's men are beaten but Shimano refuses to surrender, so he throws a grenade to Kazama and Haruka before he is killed by Terada. Kazama protects Haruka from the explosion, but ends up being fatally wounded. A horrid Kiryu cradles his dying adoptive father, who tells him that Yumi is hiding with the 10 billion in the Ares bar. He also gives President Sera's will to Kiryu, who had kept control. With his final breaths, Kazama confessed to being the one who killed Kiryu's real parents when he was a child as part of a Tojo blow. He adopted Kiryu by shame, but eventually came to love him as a real son. Kiryu forgives Kazama and bursts into tearsdies in your arms. Ch. 13 - Final[1] Kiryu and Haruka go to Ares but are attacked on course by a mob of thugs paid by Nishikiyama. Nishikiyama's couple face further problems when MIA agents attack them at the Millennium Tower lobby. Similarly, Data is captured browsing Tokyo PD files classified by Detective Sudo. However, Sudo had begun his investigation into orders to arrest Kiryu and discover Kiryu's crimes, so he decided to help Data destroy the director of MIA, Kiryu and Haruka reach Ares, where they finally meet Yumi. Yumi is too happy, both to be able to treat Haruka as his daughter and to see Kiryu for the first time in ten years. However, the happy moment is interrupted when Jingu and a platoon of MIA elite operatives arrive in the helicopter. The corrupt politician is determined to take back the ten billion and kill Kiryu, Yumi and Haruka to protect his status. Jingu also reveals that he made a deal with the Omi Alliance, where he would split the ten billion with them so that he could conquer Tokyo's underworld and, in return, control it for Jingu's benefit. However, when Jingu fails, Date and South fly to the Tower in another helicopter and inform him that they have already secured a warrant for his arrest, so no further government backup will come to help him. Jingi is not discouraged and orders his thugs of the Omi Alliance and his MIA crows to kill Kiryu. However, Kiryu does not come down easily. After revealing that Sera and Kazama declared him the fourth Tojo clan president in the president's will, Kiryu fights MIA and Omi and, much for Jingu's horror, succeeds in defeating them a 11 alone and then defeating Jingu himself in submission. Once the MIA forces are treated, Yumi uses Haruka's pendant to unlock once hidden where the ten billion were stored. At that moment, Nishiki makes his presence known. Despite Yumi and Kiryu's statements that it is not too late to repent, Nishiki says He has chosen his path and insists he will beat Kiryu and claim the \$10 billion to install himself as the fourth president of the Tojo clan. The The sworn brothers have a culminating final battle, where Kiryu emerges triumphant. As soon as the battle seems over, Jingu returns and shoots Yumi. Furious and finally repentant, Nishiki stabs Jingu and then detonates a bomb Yumi brought to kill him, sacrificing himself to save Kiryu and Haruka. The resulting explosion spreads the ten billion Tojo into the city below, where crowds of people begin to gather it. After the waters have calmed down, Kiryu and Haruka greet in tears a dying Yumi, who is said to be happy to have seen them again, even if only for a few minutes. The police arrive shortly afterwards and begin to take Kiryu into custody, until Data and South stop them. Although Kiryu briefly considers returning to prison, Data convinces him not to confess anything, since he is the only person left in Haruka. A few days later, a ceremony is held in the Tojo clan headquarters, where Kiryu is officially appointed fourth president of the Tojo clan and then resigns immediately, with great surprise from all the patriarchs of the clan. Kiryu appoints Terada as Tojo's next president, in recognition of his service in Kazama. Kiryu leaves Tojo's headquarters and then Data escorts him to Kamurocho, where he says goodbye and tells him to stay in touch. Later, Kiryu takes Haruka from a local arcade and the adoptive father and daughter return home together. SPOILER FINDS HERE. (Return) Chapters[1] There are thirteen chapters in this game: Chapter 1: October 1, 1995, The Destiny of a Traitor Chapter 2: 05 December 2005, Ten years after Chapter 3: A Fist Funeral Chapter 4: The Meeting Chapter 5: Purgatory Chapter 6: Paternity Chapter 7: Dragon and Carp Chapter 8: Plan Chapter 9: The Rescue Chapter 10: The Shape of Love Chapter 11: Honor and Humanity Chapter 12: The Meeting Chapter 13: Final Gameplay[1] Techniques of battle[1] Offense[1] Rush Combo: This determined of the character character Throws freestyle punches. It is not a strong impact to consider, but it gives the opportunity of a counterattack against the enemy, like pulling out the "Uppercut" as a final blow. Depending on how many square times it is pressed, the finish shot will change. Make sure you evaluate the threat to decide which shot to use. For example, using the combo square triangle, it will cause the enemy pain, allowing you to follow with a grip and continue the combination even after the final shot. To protect your character in unarmed combat, the Guard is deployed, withdrawing their hands quickly. However, it is insignificant with rear weapon attacks or bladed. As such, the situation must be assessed. Sway: A quick break of all directions (left, right, forward, back) that defends the character, when applied well could work favorably. At the right time, you can turn around the enemy and launch a rear counterattack. Just as you can't block the attacks from behind, neither can the enemies. You have to be careful with tougher enemies, however, because 0 They can get away too. The heat action[1] This option becomes available in the middle of a battle when certain conditions are met and when your character becomes stronger physically and has learned various techniques. For example, when you grab an enemy and are near a wall with a bar full of heat, Kiryu will violently throw the enemy against the wall, and with another well-timed attack, you will follow with a quick step to the head. This can also apply to any weapon you have. After having acquired certainties, a heat action can be used with a complete heat shell while holding a weapon. While holding a chair, for example, Kiryu will throw the chair on the head of the enemy, causing massive damage. Development and release[1] In August 6, 2005, SEGA announced that it would hold a press conference for a new game Toshihiro Nagoshi, simply titled "Project J", on the 23rd of that At the press conference, held in a club in Kabukicho, equivalent to the real life of Kamurocho, SEGA revealed that the new game would be called Ryu Gotoku (like a dragon). At the time, the game had been in development for three years, and was a departure for Nagoshi, who had previously worked on family-friendly games. [1] Demo[1] Released a few months before its proper retail distribution in December 2005, this trial version of the game (original Japanese) begins with a couple of warnings that are intended only for the mature public, then 0 the player will talk to a man in a jacket and tie, known as "Guide", if they want to try the right game. The Guide will give you an overview of the purpose of the demo, then present you a series of options: Champion part of the main story, which involves Kiryu's return to Kamurocho to look for Stardust to meet its owner, so that you can meet Kazama in secret (ten years later). On the way, the player can engage in some sideways, fight and follow the plot until after the meeting with the Shimano Minions. When the next scene is finished, the player is returned to the "talk" with the Guide. The battle tutorial inside the base of Peace Finance various real battles against random enemies, (apparently) ending with Futoshi boss Shimano Romance a girl at the hostess club look around the Batting Center, play baseball look around the Casino in Purgatory, Gambling Return to the title screen A localized version of this demo has been made, accessible only by getting a demo compilation disk distributed by the official U.S. PlayStation magazine, released even a few months before the final location. While for the most identical to the original demo (also using Japanese audio), this demo starts with its own trailer, boss Shimano fights in the Battle section has been and all blasphemy, except "bastard", is censored. Like the other demos on the disc, but unlike the original demo, the player has only thirty minutes to try Yakuza Yakuza after that they will start to the main menu of the disk. Translation is also a bit different in places, with the phrasing of some things and names that are changed in the real product. For (a smaller example) Reina is referred to as "Rina", Regional differences[1] Unlike all other games in the series, the American and European versions of Yakuza came with a full English-language vocal cast, including Star Wars actor Mark Hamill as Goro Majima. Some characters' names have been changed. Shintaro Kazama for example became Shintaro Puma, and Hanaya the florist became Kage. In the Japanese version, Kiryu would be called as such, followed by an honorific (-san, -chan, etc), very rarely called "Kazuma". The English version is about the same, only "Kiryu" is replaced with "Kazuma". Kiryu's instances calling Majima, "Big Brother Majima (Majima no nii-san)" were simply changed to "Majima-san" in the dub. The Japanese version had chapter names displayed in the right-hand calligraphy on the left. In the English version, chapter names are displayed as normal. The latter would be the case for all Japanese versions on the move, including Kiwami. For international release, an English rendering of the abstract character names in the Japanese version was created. The English dialog box is considerably more vulgar than the original Japanese script, with instances of characters swearing where there was nothing like that originally. Example of British English on the PAL version of Yakuza. The PAL version features French, German, Spanish and Italian text languages, as well as subtitles and menu texts in English located in the UK. The text of the pre-rendered main screen remains in American English. So, for example, while the screen can show "Get to the lobby!", subtitlesGet to the foyer! and the fighting card against "Street Hoodlums" is subtitled as "Street Hooligans".
