It also provides 3+ video sources and all necessary details about movies like IMDB, release year, genre, country and more.Apart from Bollywood movies, you can watch popular TV series and other countries movies (United States, France, Japan, and United Kingdom etc.) also.As it is not dedicated to Bollywood movies so you can't use filters like IMDB and genre to find your favorite Bollywood movie. You need to use search box or explore movies pages.6. Yify TVWebsite: TV offers you a large collection of Bollywood movies (2017th - 1900's) which you can watch online for free without registration in high definition quality. As of now (13 July 2019) it has only 2 Bollywood movies of 2018.One thing that I hate about Yify TV is that it keeps redirecting you to spam sites even if you use adblocker. That's why I rarely use this site.It offers you several choices (find fast, genres, release date, etc.) to find out the movie of your taste.Along with watching Bollywood movies online, you can use this site for downloading as it provides torrent links also for every listed movie.7. MoviesJoyWebsite: is the next movie site that I will love to suggest you watch Bollywood movies online free. It offers you a minimal interface with zero ads. In fact, it has the biggest library of every type of media content whether you want to watch movies, short films, and tutorials, etc.If you want to watch slightly old movies (1 - 2+years old), then YouTube is the best go-to resource for you. Use the search function to find the movie you are looking for.There are many YouTube channels that frequently upload 1900's movies also. A few of them are below.9. PutlockerWebsite: you want to watch the 2016th, 2015th and old Bollywood movies, then Putlocker can be a good movie streaming website for you, no registration needed.To find out the movie of your interest, follow the above link or choose India from the country category and then click on Filter option which you will find below the search box.Once you click at the Filter option, you will get multiple options to filter movies like quality, genre, and release year, latest, most rating, most viewed, top IMDB and more.Alternatively, you have a search bar also to find a movie you want to watch right now. It is a two-step process. Type a movie title and hit enter. And you will get the result.It also has fewer movies in its database. Some movie server links are blocked specially Openload and Streamango. Hence, I will advise you to choose other servers.Overall, it is not a good website to watch Bollywood movies online free, but an option if other sites are not working. Check out also my recent article on better alternatives to Putlocker.10. BMoviesWebsite: is a free movie streaming site, no signup needed to explore media library and watch Bollywood movies online free. It also has only old movies. No newly release movies are here. And you don't have any filter option to browse Bollywood movies database. You can only use the search function and page numbers.Apart from Bollywood movies, it has a huge database of Hollywood movies and some other countries' movies. To explore that, you get all the required filters.11. VumooWebsite: allows you to watch Bollywood movies online for free even without registration. But here you have a search bar only to find out Bollywood movies. Yes, there is no filter. So if a particular movie's name is in your mind, then Vumoo is the perfect choice for you. Type movie name or title of movie into the search bar and press enter. This way, it will show you movie link if it present in its database. Because its interface has zero popups and listed movies video quality is HD. That's why I thought it should be on the list.12. VootWebsite: is another platform to enjoy free HD streaming of Bollywood movies. No new released movies are here as most of movie streaming sites. You need to create an account here in order to watch any video on Voot.It highlights movies on its movies page by Movies We Recommend, Must Watch Movies, Comedy Special, All Movies and more.Click on More Option to browse all listed movies under a particular category.All movies section gives you a facility to filter movies by genre and language. The process of watching a Bollywood movie is same as above.15. XMovies8Website: the above two movie websites don't work, then you can give a try to XMovies8 to watch your favorites Bollywood movies online free. It works similar to FlxTox while talking about searching for a Bollywood movie. 16. Zee5Website: is the last mention in this list for now. It is a premium video streaming platform. But it also offers a limited collection of movies and TV shows for free. Registration is completely optional.Along with Bollywood movies, it also offers you Hollywood and regional movies to watch online in high definition quality.You can also watch some interesting TV shows here like KumKum Bhagya, Kundali Bhagya, Guddan Tumse Na Ho Payegaa, etc.17. Fmovies [Not Working]Website: is one of popular free movie streaming sites no signup needed. Unfortunately, it is banned in India. If you are Indian, you can access with NordVPN (my personal choice) or any other VPN service which you use. Take a look at best VPN for streaming.It has larger collection of Bollywood movies as compared to YesMovies. Movies are featured with IMDB rating, movie plot, country, genres, starts and more. Movies are in HD and has alternate streaming servers.It also allows you to watch movie trailer. At first two clicks, popups may open even with adblocker extension, close them and enjoy your movie.
