Kill devil hills surf fishing report

Surf fishing report kill devil hills nc.

BAIT REPORT - We continue to see some Mullet running however it is moving out with the cold weather and most anglers will turn to plastics instead of targeting them. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - There are a lot of big Bluefin (Tuna, Bluefin) being caught in the past few weeks. The conditions are perfect for Spanish and Bluefish this morning and the piers are catching. Puppy Drum (Drum, Red) and Sea Mullet (Kingfish, Northern & Kingfish, Southern) have turned up as well. Trophy Citation Red Drum were released as well. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - When the boats can make it on the water they are heading to the Gulf Stream for Yellowfin and Bluefin (Tuna, Yellowfin & Tuna, Bluefin). Both trolling and chunking on the day trips is productive. The sizes are great so far. If you prefer live bait use Shrimp or Squid for these inshore fish. I can see from all the cams there is plenty of action on the beaches this morning. OFFSHORE - Another day of catching good size Yellowfin (Tuna, Yellowfin) and a good amount of Dolphin were caught as well, sometimes limits as well, sometimes limits as well, sometimes limits as well but they are scattered. The Skates (Skate, Winter) are almost clear at this point. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com www.oregon-inlet.com INSHORE - Dogfish, Spiny) and Skates (Skate, Winter) are swimming the beaches. TW's Bait and Tackle 252-441-4807 www.twstackle.com INSHORE - Farther South there are some great reports of Kingfish, Southern and keeper sized Puppy Drum (Drum, Red), OFFSHORE - Tuna, Yellowfin) are coming back from the offshore boats by the stream. However, they can still make fun game. Anglers have been reaching their limits in good sizes as well. Jennette's: Spot, Bluefish, Spot, Croaker, Gray Trout, Speckled Trout and a 44 in Drum. Conditions just settled back down so we'll have to wait to see what happens out there. Blue and White Marlin, Blue & Billfish - Marlin, White) are being released along with a few Sails (Billfish - Marlin, Blue & Billfish - Marlin, White) are being released along with a few Sails (Billfish - Marlin, Blue & Billfish - Marlin, Blue & Bill and tricks! OFFSHORE - The offshore boats are catching some Yellowfin (Tuna, Yellowfin) here and there at this point. More recently the Puppy Drum bite has increased around the boat ramps. The water is calm and clear, the wind is light and the sun is bright. Some good sized kings are roughly 15 miles out where you can find rock piles. In the sound Stripers (Bass, Striped) have been particularly hot off Hatteras. Recently the nasty weather has made surf fishing tough during the day however determined anglers were out targeting Sharks and Skates (Skate, Winter). I would say they may have been more interested in watching football. There have been small Stripers (Bass, Striped) and some small Trout reported at Mann's Harbor. A few Trout (Seatrout, Spotted) are on the ocean side. The Spanish are expected to move out shortly. 2 citations weighing in at 43 lb and 45 lbs. They are all close to the stream. Towards Hatteras the King (Mackerel, King) bite has been great. Sound Fishing Report: Avalon- Spot and Bluefish. Yellowfin and Blackfin (Tuna, Bluefin & Tuna, Yellowfin & Tuna, Yellowfin & Tuna, Yellowfin and Inc., I Blackfin) are bycatches from day to day. BAIT REPORT - Finger Mullet have just about left for the year and the next front will probably move them out entirely. Anglers are even catching some right off the bridge or under them in the early morning or evening. Big Greentail Shrimp are along the beach. There are some keeper sizes in there. Jennette's: One Red Drum and Black Sea Bass. www.twstackle.com Surf Fishing Report: The fleet filled their boxes with Dolphin. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! TW's bait and tackle 252-441-4807 www.twstackle.com INSHORE -Anglers are catching a few nice Striper (Bass, Striped) in the harbor this week. Blow Toads (Puffer, Smooth) continue to bite. This week we suspect anglers off of Jennette's Pier are seeing Puppy Drum (Drum, Red). OFFSHORE - When the weather is accommodating there has been a good bite on Tuna (Tuna, Blackfin & Tuna, Yellowfin) with some fishermen even hitting their limits. There is a solid Mackerel, King bite along with some great bottom fish turning up. Jennette's: Spot, Croaker, Sea Mullet, Spanish, and Bluefish. Outer Banks: Mullet and Spanish Mackerel. Inshore Boats / Nearshore Report: Near shore boats / Nearshore Boats / Nears Ribbonfish. There's not a whole lot of beach action for Stripers. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - The offshore bite has been great for anyone that has made time during the morning to head offshore. TW's bait and tackle 252-441-4807 www.twstackle.com INSHORE - The inshore has been riddled with Skate, Winter and Smooth Dogfish (Shark, Dusky) this week. Yellowfin (Tuna, Yellowfin (Bonito, Little Tunny) have also been found in the surf. OFFSHORE - The fishing has been rough in this area due to the weather as of late Farther out anglers have seen a spotty Wahoo bite mixed in and surprisingly a couple of Billfish - Swordfish and Billfish things. The inshore morning and afternoon anglers returned to the docks with nice size Cobia. Keeper Specks (Seatrout, Spotted) and Sea Mullet (Kingfish, Southern) were also brought in. Long stand up fights on light tackle have taken place this week. Horse Ballyhoo with Islanders is a productive trolling setup. Jennette's Pier decked some Sea Mullet, Blues and False Albacore (Bonito, Little Tunny) Sunday. By Hatteras there are some Tuna, Blackfin and some scattered Wahoo as well. There are a few keepers as well. Artificials continue to do well for offshore fish this week. Justin TWs Tackle 2230 S. Whalebone Tackle 252-441-7413 INSHORE - Nearshore is holding Spanish Mackerel (Mackerel, Spanish), Bluefish and Albacore (Bonito, Little Tunny). Nags Head: Bluefish and Blow toads. We expect this bite to continue into the weekend. Boaters are trolling using stretch 15-25s, rattle traps and 1 oz. Sea Mullet (Kingfish, Southern & Kingfish, Northern), Drum (Drum, Black), and Puffers (Puffer, Smooth). BAIT REPORT - If you wantieur to continue into the weekend. Boaters are trolling using stretch 15-25s, rattle traps and 1 oz. Sea Mullet (Kingfish, Southern & Kingfish, Southern & Kingfish, Southern & Kingfish and Blow toads.) to catch your own bait you'll find that the Pinfish are thick in the area. No one has been fishing the Oregon inlet this week. There have also been a few Mackerel (Mackerel, King) showing up in the same area. The Point had a good number of Skates (Skate, Winter), a 33 inch Drum (drum, Black) caught on metal and the jetties had Bluefish and Blowtoads, 3 keepers and 3 throwbacks, Nags Head - Blues, The Little Bridge anglers reported a Striper (Bass, Striped) or 2 yesterday. There is Bluefish, Northern) and Blowfish (Puffer, Smooth) towards Hatteras. The winds are NW at 12 and the water is 55 degrees. Piers - Avalon: Small Mullet, some Trout. Chartreuse with a curly tail or green, both light or dark are the hottest colors this week. Sound Fishing Report: The Little Bridge on the Nags Head, NC - 252-441-4807 Kitty Hawk, NC - 252-261-7848 Corolla, NC - 252-453-3339 Surf Fishing Report: It s a great day on the OBX. Bob's Bait & Tackle 252-261-8589 INSHORE - There is also a good Grouper and Snapper bite. The winds are NE at 5 and the water temp is 59 degrees. Bluefish are mixed in. Most boaters do not make many trips this time of year so there is not a whole lot of competition for the fish. Black half ounce Rattle Traps are doing well to hook them. Sea Mullet (Kingfish, Southern) and Croaker are on the bottom. There is a lot of groaning going on. TW's store still has great bargains. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com www.oregon-inlet.com WSHORE - The nearshore boats are catching a lot of Spanish Mackerel (Mackerel, Spanish), Bluefish and Albacore (Bonito, Little Tunny). A few Cobia and Drum (Drum, Black) have turned up as well. The bite is not hot this week. Drum (Drum, Black) and Sharks were also swimming around the point. We wouldn't be surprised if some Tuna, Yellowfin turned up as well. A few Sea Mullet were beached. They are loving Bloodworms. OBX Bait and Tackle 252-453-3339 www.obxbaitandtackle.com INSHORE - This week we are finding that Blow Toads (Puffers, Smooth) are the most consistent catch turning up during the day. Most are turning to artificial at this time. Albacore (Bonito, Little Tunny), Bluefish, Lookdowns, Ajs (Jack, Amberjack Greater) and Cobia. Bob's Bait & Tackle 252-261-8589 INSHORE - Puppy Drum, Black Drum (Drum, Black), Skates (Skate, Winter) and Sharks are all biting when the water is cold. There has not been a whole lot of action inshore as of late. The Flounder (Flounder, Southern) and Trout (Seatrout, Spotted) are heating up. Inshore caught the same. Jennette's: Spanish, Blues, Bar Jacks, Pinfish and Pigfish. Inshore Boats/Nearshore Report: The nearshore anglers caught an impressive amount of Blues and Spanish and Pigfish. Inshore Boats/Nearshore anglers caught the same. Jennette's: Spanish, Blues, Bar Jacks, Pinfish and Pigfish. Inshore Boats/Nearshore anglers caught an impressive amount of Blues and Spanish and Pigfish. Inshore Boats/Nearshore anglers caught an impressive amount of Blues and Spanish and Pigfish. Inshore Boats/Nearshore anglers caught an impressive amount of Blues and Spanish and Pigfish. Inshore Boats/Nearshore Boats/Nearshore anglers caught an impressive amount of Blues and Spanish and Pigfish. Inshore Boats/Nearshore Boats beginning to heat up. Sound Fishing Report: The Little Bridge on the Nags Head/Manteo causeway reported a slow weekend. The troll has been more effective on them. Anglers are catching them from the boats as the water is still cool. Billfish - Sailfish were doing great as well and anglers have been hooking all of these species while trolling with skirted Ballyhoo. Inlet boats are catching bottomfish. Offshore Boats Report: The offshore fleet had a good day catching Tuna, Dolphin, and Wahoo. Light tackle was the key on the day trip. They are definitely gaffer sizes so far. OFFSHORE - Most of the anglers looking to head offshore this week are heading towards Hatteras. White Marlin (Billfish Marlin, White) and Sailfish (Billfish - Sailfish) have been hooked with a few Blue Marlin (Billfish - Marlin, Blue). Kings (Mackerel, King) are also biting. Jennette's pier hrs will be 8 to 5. Trout (Seatrout, Spotted) and Puppy Drum (Drum, Red) are swimming the beach although the surf is a bit rough. The winds are SSW at 12 and the water temp is 72 degrees. Red Drum (Drum, Red) has also been catch and release in the nearshore. The Nags Head Pier and OBX pier will be closing today for the season. Cape Point was open Monday to driving. There have been no Bass, Striped caught in the sound lately. Nags Head Pier and Bluefish Jennette's- Pigfish and Bluefish. Anglers are getting limits of nice fish. Inshore boats have found good Flounder, Southern) fishing. In the Sound, the Specks are turning up in keeper size along with a few Puppy Drum. Whalebone Tackle 252-441-7413 INSHORE - Smooth Dogfish (Shark, Dusky) and Skate, Winter have been the only fish holding up on the beach. The conditions are beginning to clear up so we expect a better bite for the weekend. Sea Mullet are usually caught in somewhat rough and cloudy water. There's also plenty of Spearing along the beach. Good job. Red Drum (Drum, Red) have also been released. The boats are limiting out every day. Nearshore we are seeing Spanish (Mackerel, Spanish), Blues (Bluefish) and Red Drum (Drum, Red) have also been released. Red). The winds are ENE at 6 and the water temp is 79 degrees. Oregon Inlet.com www.oregon-inlet.com www.oregon-in and nice, citation Wahoo to 60 lbs were brought in over the past weekend. TW's bait and tackle 252-441-4807 www.twstackle.com INSHORE - Bluefish are turning up throughout the inshore this week. A White Marlin (Billfish - Marlin, White) was caught and released. White, yellow or chartreuse bucktails are the ideal setup. Surprisingly, anglers have been hooking Puffer (Puffer, Smooth) on Shrimp or Bloodworms. The bottom is holding a few Ajs (Jack, Amberjack Greater) as well. A Dolphin have shown up this week. Ballyhoo is working well as bait. Inshore Boats/Nearshore Report: Nearshore Boats Report: High winds and rough water kept the fleet at the docks. Water is flat. You may catch a Sailfish (Billfish - Sailfish) or Blue Marlin (Billfish - Marlin, Blue) incidentally with them. Surf fishing on this side of the bridge is nonexistent. Stripers (Bass, Striped) will likely be outside of 3 miles still this week. A few Sea Mullet, Blues and a couple of Drum were caught north of the inlet yesterday. You can catch Sea Mullet with shrimp, bloodworms, sand fleas and simulated bait on a bottom rig. Trout (Seatrout, Spotted), Drum (Drum, Red) and Blues (Bluefish) are swimming in Hatteras and we hope to see that move our way soon. They can be caught on three hook bottom rigs. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com www.oregon-inlet.com Westerday. They are 40-50 lbs. The winds are NNE at 24 and the water temp is 76 degrees. Whalebone Tackle 252-441-7413 INSHORE - The Trout (Seatrout, Spotted) bite has been good however until recently there had not been sizes big enough to keep. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com www.oregon-inlet.com INSHORE - Surf Fishing Report: Scattered Bluefish, Sea Mullet (Kingfish, Southern) and a few Croakers. When they do there are some great reports of Tuna, Bluefin turning up near the gulf stream. Hatteras caught the same adding a few small Flounder, Southern) to the catch. If you are using real bait then stick to fresh Shrimp, Bloodworms, or cut mullet. Off the beach or pier you'll find Blue Fish, Puffer, Spanish Mackerel, and Sea Mullet. The water has cleared this morning. Wednesday was our last day to sail ahead of the storm. There have also been some Yellowfin & Blackfin (Tuna, Yellowfin & Blackfin) brought in as well. Yesterday's Cobia was a citation 51 ¾ lbs. Nags Head: Blues and Spanish Mackerel. OFFSHORE - A lot of 40-50 lb Yellowfin (Tuna, Yellowfin) and some nice Bigeye (Tuna, Bigeye) have been caught this week. Outer Banks: Pompano, Mullet and decent size Spot. There should be some Bluefish caught. Lures are doing best to hit them. The water is still warm so the fishing is not where it should be at this time of year. Our Fish Guide also provides tons of tips and tricks to hooking the fish and keeping your lines tight. Ribbonfish and good Cobia are right around 45-70 lbs. They are hitting mostly spoons. Hatteras got 6 in. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com www.oregon-inlet.com www.oregon-inlet (Drum, Red). Frisco and Hatteras beaches had Blowtoads. There was also one single report of Tuna, Bigeye from this area as well. They are over 5 lbs from the piers. Search 16-17 miles out around the 65 Degree tower to the Point at 40 miles. There are mixed in with a ton of Bonito (Bonito, Little Tunny) which were difficult to avoid but we still managed to bring in most of the Sails. They are hitting from the causeway, under and around the bridges and from the boats. Everything is about 40 miles out of Oregon Inlet at the stream. Both fish are best at sunrise and sunset. Outer Banks: Blues, few Croakers, and some Sea Mullet Inshore Boats/nearshore Report: The inshore charters caught Bluefish, Speckle Trout and Drum. The day trips have definitely been productive for hooking some good sized fish. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 www.oregon-inlet.com INSHORE - The weather has seemed to calm down from yesterday's conditions, although it is still cold today despite the sun. Our sources suspect that when the conditions calm down there should still be a Tuna, Yellowfin & Tuna, Yellowfin & Tuna, Blackfin bite however the Wahoo and Dolphin may become spotty by this point. OFFSHORE - Blackfin bite however the Wahoo and Dolphin may become spotty by this point. OFFSHORE - Blackfin bite however the Wahoo and Dolphin may become spotty by this point.

```
Angler team and many, many, highly skilled Captains and bait shop owners. A lot of anglers have been fishing out of the south as the Cape provides a bit of shelter. Justin from TW's Tackle likes to fish the falling tide. Prior to the weather we were seeing a better bite off the beaches however fishing is just now getting back to normal and we look
forward to seeing the results in the next few days. They also caught Blues, Spanish and Ribbonfish. Should anglers decide to head out for the holidays they can always consult our Tips feature which provides additional information and suggestions to improve the catch. Trolling has been the best bet for all fish. Scattered Wahoo are mixed in. PRO
ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - Since the storm there haven't been any boats heading out. Most of it is running to the South towards Wilmington. Nags Head: Spanish, Blues and Spot. This past weekend there were some 20 inches and larger caught so they are slowly growing
PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - Blackfin Tuna (Tuna, Yellowfin) and scattered Wahoo can be found offshore around the gulf stream. A 1 ½ lb Sea Mullet is citation size. Not a lot of anglers are fishing at this time. There are no signs of Striper
(Bass, Striped) as of yet. The occasional Trout (Seatrout, Spotted) has turned up on the beach as well as some puppy drum (Drum, Black). Having said that, we could not have asked for a better fishing holiday. Farther South near Buxton there have been tons of Blow Toads (Puffer, Smooth). Stop in or give us a shout for an update. TWs Tackle 2230 S.
Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com www.oregon-inlet.com www.oregon-inl
throwback Trout. Inshore we are seeing Stripers (Bass, Striped), keeper Flounder, Southern), Spanish and Bluefish. Bob's Bait & Tackle 252-261-8589 INSHORE - The inshore boats are seeing a lot of Specks (Seatrout, Spotted), Spanish (Mackerel, Spanish), Bluefish, Flounder, Flounder, Southern) and Cobia. PRO ANGLER APP USERS
Tap a fish listed below the report for more angling tips and tricks! TW's Bait and Tackle 252-441-4807 www.twstackle.com INSHORE - Another tough week of fishing for anglers around here! The wind, rain and cold prevail yet again and the bite has been difficult. Jeff Ross Obsession Fishing Charters 252-480-0094 captjeff@mindspring.com
www.obsession-charters.com INSHORE - Towards Rodanthe / Hatteras area we are seeing Puffers (Puffer, Smooth), Sea Mullet and Reds (Drum, Red) turning up off the surf. The bite has not been consistent however. You'll want to pick up some frozen Ballyhoo from your local bait shop for these fish. Check out the killer Sidewalk sale that is
happening this weekend with some great deals to be had. Not many have been more than 12 inches long. A few keeper Reds (Drum, Red) and Stripers (Bass, Striped) are being caught. Oregon Inlet.com www.oregon-inlet.com INSHORE - There are tons of Drum (Drum, Black) about 30
50 lbs biting at Jennette's Pier and some from the surf. The Tilefish can be caught in limits while deep dropping. Flounder, Summer (Fluke) and Sheepshead have also made an appearance on live bait as well. From the bottom there are some good keeper Flounder, Southern), Seatrout (Seatrout, Spotted), Puffers (Puffer, Smooth), Croakers
and Sea Mullet (Kingfish, Southern & Kingfish, Northern) around the outer banks. Water is calming but still rough. Towards Hatteras there have been reports of Drum (Drum, Red), Whiting (Kingfish, Northern & Kingfish, Southern) and Puffers (Puffer, Smooth). This is unusually for the time of year. There were still Sea Mullet (Kingfish, Southern & Kingfish, Southern) and Puffers (Puffer, Smooth).
Kingfish, Northern) off the piers however they have closed this week along with some Puffer, Smooth. Bluefish are pretty much the same. The Headboat caught Croaker, Sea Bass, Spot, Sea Mullet, and Flounder. Fishing in general this time of year to March is a bit slow. BAIT REPORT - The Shrimp are pretty far offshore, about 30-35 miles.
Jennette's: Bluefish. I call each pier every morning. There are some nice fat Yellowfin Tuna (Tuna, Yellowfin) brought in as well. Marlin (Billfish - Sailfish). Before the storm, there were limits of Yellowfin) and scattered Dolphin being caught along with Blackfin Tunation (Billfish - Sailfish). Before the storm, there are some nice fat Yellowfin) and scattered Dolphin being caught along with Blackfin Tunation (Billfish - Sailfish).
(Tuna, Blackfin). Nearshore there has been great Spanish Mackerel (Mackerel, Spanish). They are chasing the Menhaden and can be caught on Mullet. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - A handful of Bluefin as well as a good catch of Yellowfin and Blackfin (Tuna, Bluefin &
Tuna, Yellowfin & Tuna, Blackfin) have been caught this week. Fishing was not great on the northern beaches. Drum, both puppy and larger sizes have also preferred fresh Mullet. The water is calm with small swells. Sound Fishing Report: The Little Bridge on the Nags Head/Manteo causeway reported small Trout and Croakers. In the outlet there
are Bluefish, and more smaller Reds. Inshore the Trout (Seatrout, Spotted), Cobia and Flounder (Flounder, Southern) have all turned up. A few Bluefish were reported. Puppy Drum (Drum, Red) and Bluefish were the only notable catches. bucktails. Specks (Seatrout, Spotted) and Bluefish have also been caught. Inshore Boats/Nearshore Report: The
nearshore boat caught plenty of Spanish, some Bluefish and Albacore. The nearshore is holding Spanish Mackerel (Mackerel, Spanish), Drum (Drum, Red), Bluefish and Ajs (Jack, Amberjack Greater). A few Drum (Drum, Red) have been hanging around as well. The wind is light. Gaffer Dolphin are being brought in with a few Tilefish (Tilefish,
Blueline). Some nice Yellowfin (Tuna, Yellowfin) were caught also a Dolphin and a Mako Shark (Shark, Mako). This bite is expected to continue through the rest of the week. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - Bluefin (Tuna, Yellowfin) to 500 lbs have been caught offshore. Red
Drum and Shad are coming off the piers and beaches locally but they haven't fired up. The Striper (Bass, Striped) bite has come to a halt this week and there have been no reports of any being caught so far. Pier Fishing Report: Avalon: A few bottom fish. Some Blowtoads and small Sea Mullet were caught at Avon. www.twstackle.com Nags Head, NC
- 252-441-4807 Kitty Hawk, NC - 252-261-7848 Corolla, NC - 252-263-3339 Surf Fishing Report: We have high winds and high seas. OFFSHORE - The weather has been pretty nasty in this area lately. There hasn't been much being caught from boats off the beach. There are a lot of little ones with some keepers mixed in but you have to work for
them. They seem to be just about everywhere, especially around ramp 43 mixed with some puppy Drum (Drum, Red) and catch and release Black Drum (Drum, Black). We are even seeing some Sails (Billfish - Sailfish) and Wahoo. There were scattered Sea Mullet (Kingfish, Southern) on the beaches during the weekend. Soft plastics are performing
fairly well this week too along with stretch 15s on the troll. The Dolphin bite is heating up. There were scattered Bluefish and Sea Mullet and Croaker. Few are undersized at this point. Blues are hitting most anything including fresh Mullet. There are even some Dolphin
turning up in this area. TW's Bait and Tackle 252-441-4807 www.twstackle.com INSHORE - Although we have seen some outstanding weather this Winter, it's been pretty seasonal this week, and looks as though it will stay this way into next week. A 2.5 lb Bluefish has turned up off the beach which is a great start. Water is flat, glassy and clear. It is
really a day to day process of figuring out what the fish prefer. A few Sea Mullet (Kingfish, Southern), small Bluefish and Pompano (Pompano, Florida) were scattered on the south beaches. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! BAIT REPORT - Mullet are few and far between. BAIT REPORT -
Pinfish are swimming this week. It's pretty easy to get fresh bait when the bait is slammed up on the beach. INSHORE ATLANTIC - In the inshore atlantic You'll find Cobia and Dolphin. Captains are doing some commercial fishing offshore. From the surf they are hitting just as well but are preferring spoons. Limits of Mahi (Dolphin) are also being
caught. We hope to see a good bite once things settle down. Follow the Shrimp boats about 30-35 miles off the beach to find them. We are seeing good Tuna, Yellowfin along with some nice sized Tuna, Blackfin.
I have nothing from the north beaches. A few Sharks are scattered about and some Bluefish have moved in. BAIT REPORT - There are Croakers swimming the surf and can be caught for bait. Whalebone Tackle 252-441-7413 INSHORE - All the action from the surf and can be caught for bait.
Blueline) are turning up. Brooke Manion won it with a 14 ¾ Bluefish. Heading towards Buxton the day bite for Sea Mullet (Kingfish, Southern) are becoming more plentiful along the surf. This morning, the OBX Pier is catching Sea Mullet (Kingfish, Southern) are becoming more plentiful along the surf. This morning, the OBX Pier is catching Sea Mullet, Blowtoads and Skate (Skate, Winter).
INSHORE SOUND - In the sound there are lots of fish biting. OFFSHORE - The nice weather has produced some great fishing in the deep water this week. Coratan Highway, Nags Head • 252-441-4807 DISCLAIMER: Since fishing conditions change from minute to minute to minute we try to keep our reports as updated as possible. Small bottom fish today.
Anglers are throwing predominantly stretches or bucktails for the Stripers. Oregon Inlet.com www.oregon-inlet.com 
is not a whole lot going on in this area so far. Once the water warms up after a few hotter days and nights we will see these same fish show up in this area. Most of them are fairly small sized at this point. So far they are consistent and the sizes are fair. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com www.oregon-inlet.com www.or
inlet.com INSHORE - Hey anglers! In order to bring you valuable, up to date content such as regulations, GPS Hotspots, and BRAND NEW features the Pro Angler App Pro Reports will be returning the week of January 16, 2017. Not a lot of recreational anglers have headed out during the beginning of the week but this should pick up by the weekend
Inshore boats are a bit slow this week. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - Anglers are catching Yellowfin (Tuna, Yellowfin) up to 50 lbs. Anglers are catching them on the troll around the gulf stream. Mullet are your best bet for Drum from the surf. Pier Fishing Report:
Avalon: Sea Mullet and Bluefish Nags Head: Small Flounder. Nags Head: Small
of Tuna (Tuna, Blackfin & Tuna, Yellowfin & Tuna, Yellowfin & Tuna, Bluefin) towards the Stream. BAIT REPORT - If you plan on trolling, you can get Ballyhoo from TW's tackle to stock up! OFFSHORE - We are beginning to see a great Tuna (Tuna, Yellowfin & Tuna,
Bluefin) bite this week. The sizes of both fish are varying although we expect to see increased Trout sizes once the weather cools down. Offshore Boats Report: Rough conditions kept the boats in. It was slow. Whalebone Tackle 252-441-7413 INSHORE - Puppy Drum and Stripers (Bass, Striped) were caught in the Oregon Inlet and Jennette's Pier this
past week. Sound Fishing Report - The little bridge on the Nags Head / Manteo causeway reported small bottom fish. Striper (Bass, Striped) fishing in the sound was good. Bright sun, choppy water, moderate winds. Wind and rain have deterred most boaters from heading offshore. Sound Fishing Report: The Little Bridge on the Nags
Head/Manteo causeway reported Trout, Stripers and Croaker. Sun is shining for now. Bluefish and Crabs are turning up around 7-8 miles. Few keeper Trout have been caught. The bottom bite is active! PRO ANGLER APP USERS – Tap a fish listed below the report for more angling tips and tricks! OFFSHORE – There is some great action from the
offshore this week. Sound Fishing Report: The Anglers on the Little Bridge on the Nags Head/Manteo causeway are catching Trout (Seatrout, Spotted) and Black Drum (Drum, Black). Towards Hatteras there are also some Kings (Mackerel, King). There is good news. We hope to see some Bluefish in the next little while however it is difficult to tell
during weather like this. We just got a little taste of winter. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com www.oregon-inlet.com www.oregon-in
some time in. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com www.oregon-inlet.com 
Yellowfin (Tuna, Yellowfin) and some Wahoo caught prior to the front. They are being caught around 35-40 miles off the shore. Puffer, Smooth are turning up along with some Bluefish. BAIT REPORT - There have not been any reports of bait running so far this week. Scattered Rockfish (Bass, Striped) are in the Sound but there hasn't been anything
consistent yet. Drum fishing and Trout (Seatrout, Spotted) fishing was phenomenal. A few scattered Pompano (Pompano, Florida) have also turned up. Trolling boats caught good numbers of Spanish and Blues. There are some Trout (Seatrout, Spotted) that have come up on bass assassin soft plastics or gulp jigs as well. Around the bridge there have
been great reports of Bass, Striped most being within keeper size. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com www.oregon-inlet.com www.oregon-inlet.com INSHORE - There are a lot of Puppy Drum (Drum, Red) being caught however only some are big enough to keep. Oregon Inlet Fishing Center & Charter Boats 252-441-6301
info@oregon-inlet.com www.oregon-inlet.com INSHORE - Nearshore the Spanish (Mackerel, Spanish) and Kings have been great. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com INSHORE - There are a ton of Stripers (Bass, Striped) in the sound this week. OFFSHORE - Hot Yellowfin (Tuna, Yellowfin) and scattered
Blackfin (Tuna, Blackfin) are catching well in this area. Frisco was bombarded with Skates, caught and Blowtoads. Caught a 62 lbs Cobia and a 3 lbs Flounder Tuesday Afternoon. Anglers are hooking above average Yellowfin (Tuna, Yellowfin) along with fish up to 65 inches. It hasn't been a challenge to catch them, you just
have to be there. There have been reports of 30-50 lb Reds off the piers as well as Stripers (Bass, Striped) near the bridges. Check in with us as to when we'll resume charters. Good numbers of Yellowfin and Blackfin Tuna (Tuna, Yellowfin and Blackfin) have come in as well. OFFSHORE - The Tuna, Bluefin bite has been great when the weather
allows anglers to get on the water. Trolling with skirted Ballyhoo has produced the most success for the offshore fish. The winds are SW at 13 and the water temp is 63 degrees. The head boat has caught Flounder, Sea Mullet (Kingfish, Southern), Spot, Sea Bass (Sea Bass, Black), Trout, Croaker, Pigfish and Pinfish. Recently we saw good numbers of
Trophy and citation Wahoo. Really nice Wahoo and citation Blackfin (Tuna, Blackfin) are also being caught as well as an early catch of Billfish - Marlin, White). Also a few Yellowfin and some Wahoo. A wreck fishing trip had grood numbers of Triggers and Sea Bass. Conditions are tougher today, but the Drum fishermen are on the piers.
Spanish (Mackerel, Spanish) were caught at Frisco as well. Stripers (Bass, Striped) are a mix of keepers and undersize. Speckled Trout (Seatrout, Spotted) are slowly beginning to bite around the South side of the Pamlico Sound. Mahi (Dolphin) are mixed in, and a few Blue Marlin (Billfish - Marlin, Blue) were also caught incidentally towards
Hatteras. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com INSHORE - Monday was a beautiful spring day and the fishing was fair. Sound Fishing Report: The Little Bridge on the Nags Head/Manteo causeway reported Croakers. Stripers (Bass, Stripers) are being caught this week. To the North East there are still
White Marlin (Billfish - Marlin, White) off Ocean City and Virginia Beach if you are willing to make the run to 75 miles. They are holding up in the sound. Anglers are catching nice fat Yellowfin (Tuna, Yellowfin) up to 144 lbs. Lots of smaller Bluefish have been caught on cut mullet from the same areas while the Puffer are hitting soft bodied lures
similar to the Trout. Ajs (Jack, Amberjack Greater), Moonfish, and Albacore (Bonito, Little Tunny). The water is a bit too cold locally. Inshore we are seeing nice Specks (Seatrout, Spotted), Flounder (Flounder, Southern) and Puppy Drum (Drum, Red). nearshore anglers caught Sharks, Drum and Cobia. Great Mahi (Dolphin) are coming in. Offshore we are seeing nice Specks (Seatrout, Spotted), Flounder (Flounder, Southern) and Puppy Drum (Drum, Red).
Boats Report: Wow! There were 98 White Marlin releases. Scattered Bluefish, Blow Toads (Puffer, Smooth) and Whiting (Kingfish, Southern & Kingfish, Northern) are mixed in as well. Outer Banks- A few bottom fish. Pier Fishing Report: Avalon: Spanish and Blues. TW's bait and tackle 252-261-7848 INSHORE - It's still a bit slow in this area as of
late. We are still waiting for Yellowfins (Tuna, Yellowfin) to become thicker but they are hitting. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - Big Bluefin (Tuna, Bluefin) are being targeted by commercial anglers this week. A few Sailfish (Billfish - Sailfish), White Marlin (Billfish - Marlin, Bluefin) are being targeted by commercial anglers this week. A few Sailfish (Billfish - Sailfish), White Marlin (Billfish - Marlin, Bluefin) are being targeted by commercial anglers this week. A few Sailfish (Billfish - Sailfish), White Marlin (Billfish - Marlin, Bluefin) are being targeted by commercial anglers this week. A few Sailfish (Billfish - Sailfish), White Marlin (Billfish - Marlin, Bluefin) are being targeted by commercial anglers this week.
White) and Blue Marlin (Billfish - Marlin, Blue) were released as well. OFFSHORE - Tuna (Tuna, Blackfin & Tuna, Yellowfin) have been hot this week. South towards Hatteras we are seeing Blow Toads (Puffer, Smooth) in good numbers. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks!
TW's Bait and Tackle 252-441-4807 www.twstackle.com INSHORE - Puppy Drum have been caught in and around the sound in the deep channels. Small Stripers (Bass, Striped) are still plentiful which is a great sign for next year when the season reopens. Kings (Mackerel, King) are biting on live bait down in Hatteras. Bad lightning storm. TW's Bait
and Tackle 2230 S Croatan Hwy, Nags Head, NC OFFSHORE - Bottom fishing is slow right now since Red Snapper season is closed. We expect offshore trips to resume this coming weekend. Whalebone Tackle 252-441-7413 INSHORE - Around the inlet there are Puppy Drum (Drum, Red) and Trout (Seatrout, Spotted) from the boats. Oregon Inlet
Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com www.oregon-inlet.com INSHORE - Nearshore boats are catching Spanish (Mackerel, Spanish) and Bluefish. 10 drum caught yesterday and night. The Red Drum (Drum, Red) are mostly catch and release but there are solid numbers of citation fish. The water is still a bit warm so
once it cools down the bite may heat up. BAIT REPORT - Finger Mullet are beginning to move down the bridges to find them. it was overall slow going. Pier Fishing Report: Avalon: Sea Mullet. The morning and afternoon bite are both productive. We rely on even small contributions to inform us that fishing conditions have changed
so we can update the Kill Devil Hills Fishing Report. The weather has made fishing pretty dreary so far. They are swimming the beach and the bigger fish are around the inlet from Corolla down. They are all out at the stream
and mixed up pretty well. BAIT REPORT - Most of the finger sized Mullet are gone. TW's Bait and Tackle 252-441-4807 www.twstackle.com OFFSHORE - Seas were high and the rough waters made offshore fishing tough throughout the day. Good numbers of Mahi Mahi (Dolphin) are swimming as well. Oregon Inlet Fishing Center & Charter Boats
252-441-6301 info@oregon-inlet.com www.oregon-inlet.com INSHORE - Inshore we are seeing Specks (Seatrout, Spotted), Flounder (Flounder, Southern) and similar fish to the nearshore in the
inlet. Rain all day. Whalebone Tackle 252-441-7413 Surf Fishing Report: There were a few Trout and Bluefish north of the inlet. Stripers (Bass, Striped) are hot in the Sound. I am getting more than the usual Shark pictures this year. No reports of anything huge yet this week however they are there. The surfers are catching some waves today. Anglers
are fishing from 30-40 miles out. Whalebone Tackle 252-441-7413 INSHORE - This time of year we are seeing Puppy Drum (Drum, Red) on the beach. There are several Sailfish (Billfish - Sailfish) and White Marlin (Billfish - Marlin, White) releases each day. The Inshore boats / Nearshore Report:
Near shore boats continue having spectacular catches of Bluefish and Spanish. Pier Fishing Report: Avalon - Small Croaker and Sea Mullet. Threadfin are here and bluefish can be used on the piers. They are sometimes mixed in with nearshore Bluefish. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and
tricks! OFFSHORE - A few Billfish are turning up however they are not as hot as they were as the focus is on Tuna. Most fish are being caught on the troll. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - It's been a bit tough to get offshore in the past few days however the weekend bite
consisted of some great Bluefin (Tuna, Bluefin) catches! We hope to see this continue once conditions have cleared up. We have calm NW winds and the water temp is 79 degrees. Trout (Seatrout, Spotted) bite. This has
been the main focus for anglers until the Spring pattern sets in. Blackfin Tuna (Tuna, Blackfin) and Dolphin are at about 35 miles below the point. Nags Head: Fishing is good, Bluefish, Sea Mullet and Trout Jennette's
Sea Mullet and Bluefish. If you are targeting Sea Bass like a lot of anglers, you'll have to travel beyond 60 ft of water to find them while dropping cut Squid and you can also get some Tautog. Bob's Bait & Tackle 252-261-8589 INSHORE - There has been a lot of wind in this area as of late. Once things calmed down the Sailfish (Billfish - Sailfish) were
biting well and we were easily catching great numbers. It is not the conditions. The winds are S at 7 and the water temp is 57 degrees. Stop in and stock up! PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - Limits of Tuna, Yellowfin) are surprisingly being caught this week. Anglers are
anxiously waiting for the Tuna, Bluefin bite to fire up. Offshore Boats Report: The Bluewater fleet brought plenty of Dolphin, some Yellowfin back to the docks. Sound Fishing Report: Avalon: Spot, Mullet, and Blues. Anglers are heading out to
the stream to hook them this week. Anglers are targeting them as their main inshore fish. Whalebone Tackle 252-441-7413 INSHORE - Anglers are catching Shark, Sailfish (Billfish - Sailfish) were brought in as well. There have also been reports
of Bass, Striped by the bridges however most of them are smaller sized as well. Towards Hatteras from Buxton we are seeing Blow Toads (Puffer, Smooth), scattered Sea Mullet and Drum (Drum, Black). Sound Striped by the bridges however most of them are smaller sized as well. Towards Hatteras from Buxton we are seeing Blow Toads (Puffer, Smooth), scattered Sea Mullet and Drum (Drum, Black). Sound Striped by the bridges however most of them are smaller sized as well. Towards Hatteras from Buxton we are seeing Blow Toads (Puffer, Smooth), scattered Sea Mullet and Drum (Drum, Black).
Tackle 252-441-4807 www.twstackle.com INSHORE - The nearshore is still a bit slow. The sizes are great and we expect this to continue into the weekend. Please feel free to take a look at last week's reports for an idea of what's biting or give your favorite local bait shop a shout! The Pro Angler App looks forward to bringing you lots of exciting
changes as we kick off 2017! Pro Angler Team INSHORE - The weather has been favorable into this week and anglers have been able to make it onto the water for the new year. That's a lot of water. A little farther out there have still been some reports of Wahoo and smaller sized Dolphin swimming. There are a few keepers mixed in, but not too
many. Blackfin (Tuna, Blackfin) and Bigeyes (Tuna, Bigeye) have also shown up on full day trips to the gulf stream. The inlet is fairly shoaled up right now so boaters will have to pick through. The winds are SE at 6 and the water temp is 61 degrees. There are also expected to be some Puppy Drum (Drum, Red), Sea Mullet (Kingfish, Northern &
Kingfish, Southern) and Blow Toads (Puffer, Smooth) swimming the area as well. Inshore/Nearshore Boats - Despite the weather, an inshore boat fished and caught many Spanish (Mackerel, Spanish) and some Cobia. Anglers caught their limits. Most of them aren't big enough to keep at this time but anglers who make their way out in the morning are
catching larger sizes. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - The nearshore is holding excellent Spanish Mackerel (Mackerel, Spanish). Specks (Seatrout, Spotted) are beginning to show up on the beach. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-
inlet.com www.oregon-inlet.com INSHORE - Anglers hare heading out to the points searching for Blow Toads (Puffer, Smooth) along with decent numbers of Puppy Drum (Drum, Red). Jennette's: Flounder, Bluefish and Sand Perch. Victoria fished the sound in Manns Harbor yesterday and caught a keeper Trout. BAIT REPORT - Bait is scarce. One
Banks: Sea Mullet. OFFSHORE - A lot of Mahi (Dolphin) and Tuna (Tuna, Yellowfin) are turning up offshore. Anglers are having no trouble hooking them on the troll. Pier Fishing Report: Avalon - Nice Spanish (Mackerel, Spanish) in the 24 in range, Pompano (Pompano, Southern), Blues and small Cobia. They are mostly Gaffer so far. The winds are N
at 15 and the water temp is 63 degrees. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 www.oregon-inlet.com INSHORE - Similar to last week, Stripers (Bass, Striped) have been hiding around the bridges. Anglers are putting in a full day to hook them. There are not the numbers there were before the storm but they are decent. It was a
birthday catch. A few Blackfin (Tuna, Blackfin) and some giant Wahoo, one 80 lb citation. Puppy Drum (Drum, Red) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are showing up in the same area while some bigger Drum (Drum, Black) are shown as a showing up in the same area while some bigger Drum (Drum, Black) are shown as a shown shown as 
Spanish), puppy Drum, Reds (Drum, Red) and Bluefish. Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com INSHORE - Striped Bass (Bass, Striped) have been caught around the bridges so far this week. Bob's Bait & Tackle 252-261-8589 INSHORE - There are some really nice Puppy Drum (Drum, Red) come in this
Tackle 252-441-7413 INSHORE - During the Winter months the fishing is a bit slow. The SW winds are calm and the water temp is 78 degrees. Pier Fishing Report: Avalon: Bluefish and Sea Mullet. Avon Pier sponsored a Fish like a Girl Tournament for breast cancer. Mako Sharks (Shark, Shortfin Mako) are turning up. Puppy Drum (Drum, Red) and
the occasional Speckled Trout (Seatrout, Spotted) has also been caught. If you are going to use live or frozen bait, Shrimp or Mullet (Kingfish, Southern), Puffers (Puffer, Smooth) and Spot have all been brought in. TW's bait and tackle 252-441-4807
INSHORE - The surf is holding some Bluefish this week. Pier Fishing Report: The truth be told, the piers are really slow for this time of the year. TW's bait and tackle 252-441-4807 INSHORE - Spanish (Mackerel, Spanish), Bluefish, and Ajs (Jack, Amberjack Greater) have been hooked inshore. We are also receiving reports of catch and release
Stripers (Bass, Striped) come in from the sound. There has been some decent Trout fishing to the South around the Point at Buxton, Hatteras and Frisco. The fleet is also finding the Yellowfin again with Blackfin, Wahoo and Bonita as well. Whalebone Tackle 252-441-7413 INSHORE - Today is the first day of winter. The headboat caught their usual
Gray Trout, Bluefish, Croaker, Sea Bass, Sea Mullet and Flounder. A few Blue Marlin (Billfish - Marlin, White) are here and there. The wind and ocean was rough. There are good numbers of Mahi and a few Billfish (Billfish - Sailfish) releases have taken place as well. The Striper fishing in the harbor hasn't been as good as we'd hoped however it
the weekend. Drum are biting off Buxton at the point. INSHORE - ATLANTIC: TWs Tackle tells us that there is a good mix of fish biting on the inshore. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! BAIT REPORT - Sea Mullet are swimming the surf towards Hatteras. Sound Fishing Report: The Anglers
fishing the Little Bridge on the Nags Head / Manteo Causeway are catching a few keeper Trout, Flounder and Croaker. No report on surf fishing. Nags Head: Slow. Inshore we are seeing Speckled Trout (Seatrout, Spotted), Pompano (Pompano, Florida), Cobia and Red Drum (Drum, Red) in great sizes. Trout are taking Berkley Gulp, Bass Assassins
and Zman Lures in Electric Chicken. BAIT REPORT - Some Mullet is slowly moving in this week. Tuna, Yellowfin & Tuna, Yellowfin & Tuna, Blackfin) limits have been easily brought int along with tons of Dolphin. Oregon Inlet.com www.oregon-inlet.com www.oregon-inlet.com INSHORE - If we see some warm weather
anglers will be hooking Puppy Drum (Drum, Red) and Black Drum (Drum, Black), especially in the harbor. TW's Bait and Tackle 252-441-4807 www.twstackle.com INSHORE - There are some Stripers (Bass, Striped) turning up in the sound this week on rattle traps and 1 oz bucktails. Inshore Boats/nearshore Report: Miss Oregon Inlet sailed yesterday
and caught Gray Trout, Croaker, a good number of Sea Mullet and pigs and pins. Whalebone Tackle can also provide an up to the minute report so fishermen know exactly what to expect when they hit the water. ALBEMARLE SOUND INSHORE: On the sound side there are Trout, Flounder and other smaller fish. Gotcha Plugs have been the best way
to hook them. Whalebone Tackle 252-441-7413 INSHORE - Surf fishing slowed considerably yesterday. This past weekend was great. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - Limits of Yellowfin) were caught prior to the recent wind. Oregon Inlet Fishing Center &
Charter Boats 252-441-6301 info@oregon-inlet.com INSHORE - It's been pretty good for Red Drum (Drum, Red) as of late. Offshore fishing! The Fleet limited out on Dolphin. Nice size. This species is normally not in season at this time however with the unpredictable weather lately they
have been biting. There are some decent numbers out there if you put some time in. Blues (Bluefish) have had a spotty bite in the same area however neither of the two species are near steady this week. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - Bluefin are as steady as Bluefin will
get for us. There has been some great Gaffer fishing this season. Earlier in the week we even hooked a 35 pound Wahoo. There was 1 Blue Marlin and many White releases. Avalon is Slow. Bigger schools have produced fish on the troll or on a vertical jig with live bait. OFFSHORE - The deep waters are still providing some great bites for offshore
anglers. The Kings (Mackerel, King) are doing well down towards Hatteras. Most are released. Sheepshead, Specks (Seatrout, Spotted) and Flounder (Flounder, Southern) are all biting well on our inshore boats. Nice sized Wahoo were also caught. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks!
massive amounts of Gaffer Dolphin. The good news is the Yellowfin and Blackfin are showing again. The United States is a large country, so we try to keep our Kill Devil Hills Fishing Report updated once a week. Offshore Boats Report: Dolphin are plentiful with several boats catching their limits. Sea Mullet (Kingfish, Southern) continue to bite from
the beach as well. The piers are catching Sand Perch, Blowtoads (Puffer, Smooth), and Sea Mullet (Kingfish, Southern & Kingfish, Southern). Before the weather there was a lot of Billfish - Marlin, Blue & Billfish - Marlin, White) that are being released. Outer Banks: Blues, Sea Mullet, Puffers, Black Drum and a keeper puppy
Drum. With the recent rough weather they may become scattered however downtown and Oregon Inlet were hot areas. BAIT REPORT - An inshore boat fishing caught in this area. A few Specks (Seatrout, Spotted) have been picked up on the beach. Anglers also may be able to find some Specks
(Seatrout, Spotted) from Buxton and South. Jennette's - Sand Perch (Surfperch, Sand), Pigfish, a couple of Spanish and some Triggers. The inlet boats are catching Gray Trout, Croaker, Sea Mullet, and Flounder. Blackfin (Tuna, Bigeye) have been biting. Dolphin and Wahoo are coming up in good numbers as
well. Puppy Drum (Drum, Red) are just beginning to heat up at the pier as well, however they are still scattered overall. An inshore boat fishing caught some Shad. They are seeing some decent sized Yellowfin (Tuna, Yellowfin) in good numbers out at the stream. Stretch 15 and 20s, rattle traps and double bucktails are the rigs of choice so far this
week. OFFSHORE - The wind was pretty strong all weekend and the ocean is just starting to settle down. It looks like a good fishing day. Inlet Anglers caught Gray Trout, Flounder and the boats. From the Sound, the Little Bridge on the
Nags Head/Manteo causeway reported few small Stripers (Bass, Striped) and small Drum. The weather has seemed to clear up and anglers have been hit or miss. OFFSHORE - The fishing in the deep water
has been doing very well this week. Hexhead Jigs are also productive. Wahoo are doing well too. Whalebone Tackle 252-441-7413 INSHORE - There are a lot of Puppy Drum (Drum, Red) in the surf. There are no reports of Marlin just yet. Dolphin
are scattered about as well. This is a great sign of a Spring pattern beginning to set in. TW's Bait and Tackle Monterey Plaza, 815 Ocean Trail, Corolla, NC 252-453-3339 Surf Fishing Report: We had heavy downpours last night and early morning. They are loving live Ballyhoo or any similar artificial. Farther out at the 25-30 mile range there have been
reports of some Dolphin and Wahoo swimming. The weather is a bit too rough to be heading offshore at this point. Check in with us anytime to get up to the minute reports once the boats are able to get back on the water. Sea Bass (Sea Bass, Black) are a bit closer in. The wind is NE at 6 and the water temp is 69 degrees. A 68 lb Cobia released at
ramp 44 yesterday. Outer Banks: Spanish, Pompano and a 16 in Flounder. Over the weekend we were seeing some fish caught towards Buxton. The Trout season wasn't great last year but we are seeing some healthy fish kick off the year. Sea Mullet (Kingfish, Southern) are in fairly good numbers to the South. PRO ANGLER APP USERS - Tap a fish
listed below the report for more angling tips and tricks! OFFSHORE - Prior to the storm the Blue and White Marlin, Blue & Billfish - Marlin, White) were biting well. Most of the bait has moved out at this point and the next run of fish have not yet made their way in. The water is calm and murky. OFFSHORE - The weather has been
less than ideal in this area lately however there are still some anglers who have managed to get out and reel in some decent catches of Tuna, Yellowfin & Tuna, Blackfin) as well as some Wahoo. There has been the occasional Drum (Drum, Blackfin) as well as some Wahoo. There has been the occasional Drum (Drum, Blackfin) as well as some Wahoo. much Yellowfin (Tuna, Yellowfin), Mahi (Dolphin) or Wahoo on our recent trips. BAIT REPORT - So far this week there are no signs of bait running. Oregon-inlet.com INSHORE - Beach fishing continues to be slow. Specks (Seatrout, Spotted) and Small Stripers (Bass, Striped) are
coming out of the sound this week as well. Puppy Drum (Drum, Red) are also not large enough to keep either as most are coming in just shy of regulation. I thank our customers for sharing their news and pictures with us this past year and can't wait to see what 2016 brings. There are also some small Bluefish that have moved in. Chartreuse with a
curly tail seems to be the color of choice however light and dark green are working as well. Recent catches also include some keeper Bluefin and plenty of Sharks (Shark, Mako). Both Blackfin (Tuna, Blackfin) are biting this week. A chartreuse 4 inch swimming Mullet is the hot lure. Small Trout (Seatrout, Spotted) are
being caught and released with Bluefish. Towards Frisco and Hatteras the Sea Mullet (Kingfish, Southern) and Bluefish were also decent. Hayden Dougherty caught his first Cobia out of Oregon Inlet. Spot haven't shown up yet. Trout have been chasing artificials such as a berkley gulp, bass assassin or zman in various colours. We are still seeing the
bite fire up which is a good sign. There were Wahoo, and a couple of King Mackerel thrown in. Inshore Boats/Nearshore Report: Only one nearshore boat fished yesterday. From the beaches there is a lot of action this week. Fishing was slow the weekend. The wind is picking up and it has been difficult to get out as well. The inshore boats caught a
good amount of Red Drum. BAIT REPORT - Hickory Shad can be caught along the beach and is doing particularly well off Jennette's Pier. Oregon Inlet.com www.oregon-inlet.com www.o
great deals on select inventory such as Costa sunglasses and rod & reel combos. Puffer, Northern were fairly prominent last week but are starting to slow down. There were also Blue Marlin Releases. The surf and pier are producing undersized Trout (Seatrout, Spotted) and Kingfish as well. In the Sound we typically see keeper Stripers (Bass,
Striped) but there hasn't been many reports this week. Dragging Ballyhoo behind a Witch is your best bet to hook them. (Picture). There are some Cobia swimming as well however anglers are putting in a bit more time to find them. Along the beaches there is a great Trout (Seatrout, Spotted) bite along with Bluefish, Drum (Drum, Black & Drum, Red)
getting larger in the surf. There are a lot of Blackfin (Tuna, Blackfin) mixed in with scattered Bigeye (Tuna, Bigeye). Wahoo and a few Sails (Billfish - Sailfish) have turned up. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - The recent weather threats have kept some of our boats off the
water lately. Not all are big enough to keep but can be caught on the troll. Fishing has been great! PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - A lot of White Marlin, White) and Sailfish (Billfish - Bailfish) are turning up this week. Jennette's: Sea Mullet and small Spot
Outer Banks: Sea Mullet. 3 Blue, 1 Swordfish, 1 Spearfish and a Sailfish as well. They are up to 600 pounds. Anglers are using any kind of cut bait on 5/O hooks to catch them. We have SW wind at 9 and the water temp is 73 degrees. They are all short so far however we expect to see some bigger sizes in the next few weeks. The bottom fish has been
hot. OFFSHORE - It's been a pretty active week so far. The winds are SW at 11 and the water temp is 53 degrees. The winds are SW at 12 and the water temp is 53 degrees. The winds are SW at 12 and the water temp is 53 degrees. The winds are SW at 12 and the water temp is 53 degrees. The winds are SW at 12 and the water temp is 53 degrees. Ocean Trail, Corolla, NC 252-453-3339 Surf FIshing Report - There were a few bottom fish caught from the surf yesterday. Whalebone Tackle 252-441-7413 OFFSHORE - We are seeing some nice weather in the area as of late so things are looking up! Bluefin (Tuna, Bluefin) are being caught fairly consistently however they are actually too big to
keep. Cut bait has been the best bet to hook them. Offshore we have found great sized Yellowfin (Tuna, Yellowfin). Tuna (Tuna, Yellowfin) have turned up as well. Outer Banks: A couple of Drum yesterday. Nearshore there are Red Drum (Drum, Red),
Albacore (Bonito, Little Tunny), Ajs (Jack, Amberjack Greater), Bluefish and Spanish are biting. I have heard of big Drum at Ocean Sands this morning, but cannot confirm. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - There hasn't been a lot of offshore activity due to high seas recently. A
suggest fishing the early morning or late evening tide in the deeper pockets of water. Oregon Inlet.com www.oregon-inlet.com www.oregon
to be reports of scattered Dolphin and Wahoo while anglers troll for Tuna. Boaters can make a 40 mile ride to find some good sizes of Tuna (Tuna, Yellowfin & Tuna, Blackfin) this week in the stream. Sailfish (Billfish - Sailfish) are beginning to move back into the area as well. Anglers have been using rattle traps to hook them and finding this quite
effective. Tilefish (Tilefish, Blueline & Tilefish, Blueline & Tilefish, Great Northern) are also being caught in limits. Sharks (Dogfish, Spiny) and Skates (Skate, Winter) are always around. They are mostly on the smaller side. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - The high seas have kept a lot of our
boats in this week. Bill fishing continues to be good. OFFSHORE - Tuna, Bluefin are turning up in great sizes so far this week and are loving Ballyhoo as usual. For the Cobia you'll want to drop live bait and as always Dolphin love the frozen Ballyhoo as usual. For the Cobia you'll want to drop live bait and as always Dolphin love the frozen Ballyhoo as usual. For the Cobia you'll want to drop live bait and as always Dolphin love the frozen Ballyhoo as usual. For the Cobia you'll want to drop live bait and as always Dolphin love the frozen Ballyhoo as usual.
stream. OFFSHORE - There has been a lot of Mahi (Dolphin) caught in the area as of late. Look for the big Blues around the Menhaden. The fishermen on the end of the piers are using gotcha plugs. Coratan Highway, Nags Head 252-441-4807 OFFSHORE - Try trolling for Tuna, Marlin and Dolphin using Ballyhoo with hot pink and bright green skirts.
TW's Bait and Tackle 252-441-4807 www.twstackle.com INSHORE - There are fish swimming just about everywhere in the area this week. No one is going very far off the shore with the recent weather. Anglers are getting limits of slot sized but you'll have to put some time in. Now we are having rain and a warm up through Christmas. TW's bait and
tackle 252-441-6301 www.twstackle.com INSHORE - A bunch of 2-3lb Bluefish have been biting. Wahoo have also been brought in. Black Drum (Drum, Black) are up to 25 inches which is a fairly recent development. TW's Bait and Tackle 252-441-4807 www.twstackle.com INSHORE - We are starting to see a bit of Yellowfin (Tuna, Yellowfin) biting
out in the offshore this week. Berkley Gulp in White or Chartreuse is working better than live or frozen bait this week. Wahoo are biting well too, especially because of the moon. Whalebone Tackle 252-441-7413
INSHORE - There are some Stripers (Bass, Striped) holding up in the sound this week. Drop down Pinfish or other small, live, fish. Shrimp or Fishbites in Bloodworm or Sand Flea flavor are the most productive baits. OFFSHORE - The fishing has been great. Live baits that can be found locally include Shrimp and Mullet which you can also have
success on. They also caught citation Big-eyes weighing up to 210 lbs. There were small Trout (Seatrout, Spotted), Sea Mullet (Kingfish, Northern & Kingfish, Southern), and Bluefish scattered from Buxton to Hatteras. There were a few small Puppies (Drum, Red) swimming. Anglers gearing up for the Spring bite can check out our GPS Hotspots and
Drum (Drum, Red) are down by the inlet. INSHORE - The inshore morning anglers are finding good bites of Stripers (Bass, Striped) and Drum (Drum, Black). Whitecaps are still rolling so boaters should take caution when heading out this week. The piers have had a good run of Spanish (Mackerel, Spanish), Sea Mullet (Kingfish, Southern) and a few
Triggerfish (Triggerfish, Gray) and Spadefish. Long Shoal river is holding plenty of Specks (Seatrout, Spotted). Limits of Dolphin have also been caught. Billfish are beginning to bite. Your best bet is to buy frozen Ballyhoo. Not many people fishing. Bluefish and Spanish have been picked up on the beach. Anglers are both trolling and casting. We have
Dolphin was caught by Allan. The bite has been really hot and it has not been difficult for anglers to hook one this week. Whalebone Tackle 252-441-7413 INSHORE - Surf - Sunday was a wretched day. Chartreuse with a curly tail seems to be the artificial of choice however light and dark green are working as well. There is certainly a bite for anglers
heading out. Big night time Drum bite. The Headboat anglers were busy catching Bluefish, Croaker, Gray Trout, Sea Bass and Spot. Anglers hope it will pick up once the temperature cools down. Nags Head is Slow as well. There is a nice Speck (Seatrout, Spotted) bite but they are not big enough to keep yet. Surf fishing continues to be
closer in. Some anglers are using live Eels, Croakers or Pinfish however being that the catch is usually pretty small a majority are preferring to use artificials as it's mostly catch and release fishing. They are biting all through the day however the Trout are better in the morning. www.twstackle.com Surf Fishing Report: It is a beautiful beach day on
the Outer Banks. The bite is slowing down. Inshore Boats/Nearshore Report: Near shore boats are bringing in King Mackerel, Albacore and a good number of Spanish. There are quite a few little Stripers (Bass, Striped) as well which is a good sign. Everything has been weather dependent. Dolphin have moved out at this point and there are no reports
so far this week. We were surprised to see a scattered bite of Puffer, Smooth as well. They are closer in as well however the steady bite is farther out. The surf is producing Trout, Puppy Drum and Bluefish as well. BAIT REPORT - Croakers can be
caught offshore this week. Stripers are still scarce. If you are heading to Frisco Pier the Puffers are a lot more plentiful. For the Dolphin you'll want to troll some smaller Ballyhoo and medium sized ones for the Puffers are a lot more plentiful. For the Dolphin you'll want to troll some smaller Ballyhoo and medium sized ones for the Puffers are a lot more plentiful. For the Dolphin you'll want to troll some smaller Ballyhoo and medium sized ones for the Puffers are a lot more plentiful.
The Trout (Seatrout, Spotted) bite is productive early in the morning. You'll find Flounder, Drum and Trout (Seatrout, Spotted) caught near the Little Bridge. Yellowfin (Tuna, Yellowfin) have surprisingly still been caught. Since the fish are generally smaller here you are going to want to use smaller lures, plugs, and baits. A few
Blowtoads (Puffer, Smooth), Sea Mullet (Kingfish, Southern), small Black Drum (Drum, Black) and Croakers south of the point. Although the conditions have been great. Offshore Boats Report: The fleet limited out with Dolphin. Off the piers there are still Bluefish and Spanish
(Mackerel, Spanish). Sound - The Little Bridge anglers on the Nags Head/Manteo causeway caught small Trout (Seatrout, Spotted) and Drum (Drum, Black) this weekend. www.twstackle.com Surf Fishing is slow. The best sizes are North of the point, about 38 miles out. This should change in the next few weeks. Pier Fishing
Report: Avalon: A few Blues. Towards Buxton and to the South we are seeing some Puppy Drum (Drum, Red) as well. Shad can also be caught from the pier locally. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - There has been some interesting fishing since Hurricane Matthew. BAIT
REPORT - There are reports of bait running at this time. There has not been many reports of fish coming off the shores so far this week. If you plan on targetting them you want to fish around hard bottoms and wrecks, the reef right now is especially good. Stretch 15 or 20s are working best for them. Fresh Mullet and small Zmans, Gulp or Bass
Assassin leadhead jigs are best to hook them. www.twstackle.com Surf Fishing Report: The surf fishermen are out early this morning. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - The offshore boats are continuing to catch Tuna (Tuna, Yellowfin) this week. The bigger pods are farther
Drum (Drum, Red) as well. Offshore Boats Report: The Dolphin are still plentiful. A lot of times anglers are Greensticking for them. OFFSHORE - Towards Oregon Inlet we are seeing some Tuna, Bluefin turn up offshore. Once things are more ideal anglers can also check out our Fish Guide which provides additional tips and tricks to help keep your
lines tight. The wind is N at 4 and the water temp is 79 degrees. it is not unusual to have a good number of Sandbar Sharks or Atlantic Sharpnose Sharks caught from the surf in the summer. Anglers have to head out to roughly 38 miles to find them as the nearshore has been very slow as of late. The Sea Mullet (Kingfish, Northern) are biting well
from the piers. Whalebone Tackle 252-441-7413 INSHORE - There are still some Stripers (Bass, Striped) swimming in the sound this week along with some Drum (Drum, Red) and Trout
(Seatrout, Spotted) when the weather is favorable. Caught boatloads of Yellowfin, Blackfin, and limits of Amberjacks. There hasn't been any more Billfish lately. It seems they will try just about anything as the Stripers have been the main focus and most of the action this week. PRO ANGLER APP USERS - Tap a fish listed below the report for more
angling tips and tricks! OFFSHORE - Blackfin Tuna and a few Yellowfin (Tuna, Blackfin & Tuna, Yellowfin) are being caught offshore. We are seeing a lot of Billfish. Ajs (Jack, Amberjack Greater), Red Drum (Drum, Red) and a few Bluefish are still out there. They have been run up onto the beach by predators in some areas. A few Spot and small
Bluefish. Offshore Boats Report: One off shore boat braved the rough weather and still managed to catch their limits of Dolphin. The Stripers have gotten big at this point, however overall number are less than last week. BAIT REPORT - Our sources have not seen any bait running as of late. Most are up to 103 inches. Oregon Inlet Fishing Center &
Charter Boats 252-441-6301 www.oregon-inlet.com INSHORE - Most of the Outer Banks Holiday visitors have left the Island. Inshore Boats / Nearshore Report - A super day for the nearshore fleet bringing back to the docks limits of Amberjack, Bluefish and Cobia. Miss Oregon Inlet headboat caught Sea Robin, Croaker, Bluefish, Sea Bass, Gray
Trout, Sea Mullet and Sharks. Otherwise most angler are staying inside so far this week. A few bottom fish caught north of the inlet on Monday. Striped) and Spanish have been swimming up close with a few Cobia mixed in. PRO ANGLER APP USERS - Tap a fish listed below the
report for more angling tips and tricks! OFFSHORE - Bluefin (Tuna, Bluefin) have been hot this week. In the inlet you'll find lots of Drum. Once the temperature cools down a bit we expect to see some bigger sizes however the occasional keeper is turning up for anglers who can pick through. Finger Mullet have arrived at Whalebone Tackle.
Whalebone Tackle 252-441-7413 INSHORE - Bass, Striped are reported to have a solid bite in the shallower water. Whalebone Tackle 252-441-7413 INSHORE - Sound Stripers (Bass, Striped are reported to have a solid bite in the shallower water. Whalebone Tackle 252-441-7413 INSHORE - Bass, Striped are reported to have a solid bite in the shallower water.
to use live Shrimp as their scent will be a lot more effective in attracting fish. TW's bait and tackle 252-261-7848 www.twstackle.com INSHORE - Buxton South is producing some nice Puppy Drum (Drum, Red) in the slot from 18-27 and around inches. News is scarce. Buddy Branner caught a 33 in Drum at Oregon Inlet the weekend. We are seeing
very good numbers of Yellowfin Tuna (Tuna, Yellowfin). Blackfin and Yellowfin) are mixed in. Nearshore Sea Bass (Sea Bass, Black) are biting just North of Cape Hatteras. Normally the Yellowfin are much more productive however they are slower this year. Inshore Boats/Nearshore Report: Inshore boats caught a few
sea Mullet, Puffers and Pigfish. They are eating all the Shrimp. Anglers are throwing Mullet on the bottom from the beach to hook any of these. Bucktails. OFFSHORE - Oregon Inlet had 3 offshore boats to sail yesterday. In the inlet we are seeing Spanish, Blues and Red Drum releases. You may see Blacktip (Shark, Blacktip) or Spinner (Shark,
Spinner) at Buxton Point. OFFSHORE - The Tuna, Bluefin and Tuna, Yellowfin have been a hot bite this week. Fishing is slow on this side of the bridge. Nags Head: Spanish and Bluefish Jennette's: Good early morning Spanish bite and Bluefish Jennette's: Good early morning Spanish bite and Bluefish and Albacore (Bonito, Little Tunny) are turning up along with some Sharks (Shark, Bull). Jennette's is
holding Sea Mullet (Kingfish, Southern) and Sand Perch Outer Banks are also holding Sea Mullet. PRO ANGLER APP USERS - Tap a fish listed below the report for more angling tips and tricks! OFFSHORE - When anglers are able to make it out the Tuna (Tuna, Yellowfin) bite has been doing well. Menhaden are large in the inlet and on the beach.
There have been reports of a few Dogfish, Spiny and Skate, Winter turning up. They are biting on Cedar Plugs as a first choice. Conditions are still hit or miss however we hope to see things clear up very soon. If you would like to contribute to the Kill Devil Hills Fishing Report, feel free to email your fishing tips to mike@proangler.us. Nags Head:
Bluefish. Scattered Yellowfin, Blackfin and Wahoo are also showing up. Shrimp, Puffers and Mullet can be found off the piers. BAIT REPORT - Croaker are turning up this week. There are still some Menhaden swimming so live baits are still around to catch at this time. Blackfin (Tuna, Blackfin) are also hitting offshore along with some Blue and White
Marlins (Billfish - Marlin, Blue & Billfish - Marlin, Blue & Billfish - Marlin, White). Throughout the inshore bite is producing nice Specks (Seatrout, Spotted), Ajs (Jack, Amberjack Greater), Cobia and Bluefish. They can also be caught at ramp 43 swimming with Puffers (Puffer,
Smooth). Oregon Inlet Fishing Center & Charter Boats 252-441-6301 info@oregon-inlet.com Www.oregon-inlet.com Whalebone Tackle 252-441-7413 INSHORE - Puppy Drum (Drum, Red) and Trout (Seatrout, Spotted) have shown up on the beach
the past few days. Outer Banks - Bottom fish and some Blues.
