The channel is available to viewers of digital high-definition television in metropolitan areas via through several owned and operated stations. On September 25, 2010, 7HD was replaced by the new channel 7mate. 7HD returned as a high-definition simulcast on Channel 70 on May 10, 2016. The Melbourne and Adelaide markets initially received 7HD as Seven HD's primary simulcast, while the Sydney, Brisbane and Perth markets received 7HD as their main simulcast from 7mate; this was to allow Australian Football League (AFL) matches to be broadcast in HD in those markets. Sydney, Brisbane and Perth temporarily received 7HD as their main simulcast during the 2016 Summer Olympics before making the change permanent during and after the 2017 Australian Open. Until January 16, 2020, the breakaway program was used to show additional AFL and Australian cricket matches The beginning of the story In 2004, following the launch of digital terrestrial television in Australia in 2001, the Network began a part-time simulcast in high definition on digital channel 70 under the name 7 HD Digital. This simulcast showed high-definition native content was not available for simulation, the promo loop aired samples from various Seven shows. Art Nouveauera 7HD was officially announced on September 15, 2007, with Seven West Media announcing its intention to launch a multi-channel high-definition channel originally planned for December 2007. However, 7HD became the first free-to-air commercial television channel to be launched in metropolitan areas since 1988 when it launched before October 15, 2007, with the 25th being the first show to air at 10:30 p.m. The channel replaced the existing Seven HD Digital services Act 1992 in 2006 - the Broadcasting (Digital Television) Act 2006 - allowed broadcasters to launch multi-channel digital channels, provided they broadcast only in high definition.[8] The channel added daytime programming for the launch of 7TWO a few weeks later on November 1. 7HD then became Seven's full high definition simulcast on Channel 70. However, Melbourne and Adelaide were the only cities to receive 7HD as a simulcast of Main Channel Sevendate; Sydney, Brisbane and Perth received 7HD as a 7mate simulcast. This is to enable upcoming AFL games to be shown in HD in all markets.[2][3] To cover the 2016 Summer Olympics in high definition in all capital cities, on August 5, 2016, in Sydney, Brisbane and Perth, 7HD temporarily switched to a simulcast of main Channel Seven. However, it returned to simulcast 7mate in those markets on August 22, 2016 after the conclusion of the Olympic Games. The seven owned stations and their affiliates downgraded 7mate from HD to standard definition following the launch of HD simulcasting on their respective main channel. 7HD was initially launched as a simulcast of the main channel Seven in Melbourne and Adelaide only, with Sydney, Brisbane and Perth with additional programming used to broadcast AFL 7mate games in HD. The channel is available to digital high definition television viewers in metropolitan and regional areas through a number of owned, operated and affiliated stations. Initially, 9HD only aired blocks of nine network programs simultaneously, but in 2008 it added time-shifted news, movies, dramas and entertainment programs. After launching 9Go! In August 2009, 9HD switched to a Nine Network HD simulcast. The channel was completely replaced in the channel was completely r 2010 by the recently launched multi-channel 9G. The channel returned as an HD simulcast on channel origins Digital broadcasting designs in the 1990s always provided[5] a high definition network service and to this end nine networks. were provided with a full DVB-T multiplex. However, recent amendments to the Broadcasting Services Act of 1992 added a mandate for standard-definition through a 2003 quota requiring a minimum number of hours of domestic HDTV content. Since the launch of digital television on 1/1/2001, Nine Network High Definition, a simulcast of standard and analogue services, has largely converted Nine simulcasts to standard definition previews during working hours for viewing in TV dealer showrooms, encapsulating a Network Ten-equivalent service. In 2002, this has been supplemented by a cycle of high-definition HD content. Australia's first domestic HD program aired with the drama Fair Amy. Nine upped its original HD output toAs of July 1, 2003, broadcast at least 1,040 hours of local HD content per year. Today's show had most of that. 9HD Escape Era was officially announced as a part-time multichannel (or "escape") on 27 September 2007 to replace the Nine Network's existing high definition simulcast service under the Broadcasting Services Amendment (Digital Television) Act 2006 in 2006 allowed television networks to launch multi-channel digital channels if they were broadcast only in high definition.[7]
Although originally expected to be the first free-to-airce and the service and th commercial TV channel to launch in metropolitan areas since 1988,[8] a surprise launch by rival channel Seven HD took place on 15 October 2007, a month before the scheduled broadcast.[9] meant that 9HD was not the first multi-channel high-definition system in Australia. Accordingly, plans to launch in November 2007 were postponed to 2008 On March 10, 2008, PBL Media announced that it would launch the channel on March 17, 2008 at 22:30 with his first show on Nightline. ] officially premiered on 17 March 2008 as 9HD from four metropolitan stations owned and operated by PBL Media, TCN Sydney, GTV Melbourne, QTQ Brisbane and NTD Darwin, along with two metropolitan WIN Corporation stations NWS Adelaide and STW Perth., as well as its regional stations RTQ Queensland, WIN in southern NSW, VTV Victoria and TVT Tasmania. The first official show on opening night started at 10.30pm on Nine News Nightline. exclusive 9HD broadcast as it ended at 2am. Full simulcast and breakout show 9Gem All 9HD launch ended on Sunday 22009[3] in preparation for the launch of GO! (now 9Gem) on September 26, 2010, which unlike the previous incarnation, was a permanent hiatus and branded separately (with one exception, the London Olympics). This completely removed Channel in the DVB-T Nine multiplex (due to technical and regulatory constraints). As a result, Nine lost most of its youth, news and comedy content in HD, but also presented women's, crime and lifestyle content on its single HD device. For some sports, such as cricket, GEM was still occasionally used for HD broadcasts under the Wide World of Sports brand, although not necessarily as a simulcast with Nine. As such, it was generally limited to non-prime-time events, while more established events continued to be shown on the Nine network. 2015 revival On November 26, 2015, Nine resumed the HD simulcast on Channel 90. As a result, 9Gem was moved to channel 92 and downscaled to standard definition. This renaissance saw the switch from 9HD to H.264/MPEG-4 AVC transmission, allowing the broadcaster to operate in full 1920 x 1080i50 resolution at a lower bit rate than in 2007. This allows the network to offer all other multi-channel service, the channel simulcasts by the Nine Network. Except for the period from 2008 to 2010 when 9HD was a separate service, the channel simulcasts content from Nine's main channel "Nine" in high definition. However, during the 2008-10 period, an exclusive Sanctuary aired for several hours a day most nights of the week, usually from 10:30 p.m. to 2:00 a.m. the next morning. For the remainder of the hour, 9HD continued broadcasting Nine. The station focuses primarily on programs aimed at young audiences and has been the current home of Neighbors, the longest-running drama series on Australian television. Prior to the launch of Channel 10 Shake in September 2020, the channel also aired programs for children. History Prior to the station's launch, Ten Network Holdings, then an independent company, formed a joint venture with international distributor CBS Studios International distributor CBS studios International distributor CBS studios International called ElevenCo. The latter owned two-thirds of
the company, while CBS held the rest of the shares. As part of the deal, Eleven gained access to programming from CBS' back catalogue. Ten Network Holdings began operations in 2017 and was subsequently acquired by CBS full ownership of Eleven. CBS eventually merged with Viacom, making 10 Peach a sister network to MTV and Nickelodeon. 31In 2018, the channel was rebranded as 10 Peach as part of Network Ten's major rebranding. The new name is intended to give the station's programming a clearer framework; Network 10 content director Beverly McGarvey described "Peach" and tried to depict all these peach fruits. presented.[4][5][6][7] Programming 10 Peach includes encores and catch-ups from Channel 10. Most of the classic shows on 10 Peach feature comedies and dramas from the 1980s, 1990s and 2000s produced by Paramount Television, CBS Studios International (through parent company Paramount Television, CBS Studios and CBS Global). Some of Ten's shows aimed at a younger audience, especially Neighbors, were moved to Eleven due to the launch of a new channel. This was part of Ten's rebranding to appeal to an older audience. The decision to reschedule Neighbors and other shows was also intended to make room for a new current affairs show in Tan's 6-7 p.m. timeslot In 2015, Neighbors was Eleven's highest rated show and the number one regular digital multi-channel show in Australia, averaging 278,000 viewers. On February 27, 2012, Toasted TV was moved from Ten to Eleven due to a series of morning lineup changes, including the introduction of Breakfast. On November 4, 2013, ten more shows including Totally Wild, Scope, Wurrawhy and Mako: Island of Secrets were delayed due to the launch of Wake Up and Studio 10. Other Australian releases on 10 Peach include Couch Time, The Loop and Bondi Ink. Tattoo. On April 6, 2020, a six-hour block of Nickelodeon children's content programming was added to the network and aired onTV Brand.[16] It ran until September 27, when children's programming was moved in its entirety to 10 Shake. On August 28, 2007, Five US launched the Five US +1 timeshift channel available only on Sky. On January 22, 2009, it was announced that Five US would be renamed Five USA on February 16. Kylie Minogue's KYLIEX2008 tour was broadcast and the opening night featured a Big Brother Live line-up where Rachel Rice threw a "favourite party" for surviving that eviction night. a private room and played 10 of Rachel's favorite songs. Live coverage of the 5th edition of the 2008 festival was broadcast on August 16 and 17, with highlights led to complaints about the overall quality of coverage, as the main headliners did not play their entire sets. Despite arguments between Davina and Steve over whose face appeared first on the channel, the first face to appear on 4Music was Kylie Minogue, covering her live concert at 9pm on the opening night (asexplained). The release also featured new digital on-screen graphics and a new identification of a woman spinning on a chair with the station's logo in the background. The concept of the channel's on-air presentation was similar to The Hits' previous idea, and the TV was suddenly full of color across the room. From 2 April 2013, all Box TV channels were free-to-air. As a result, the channels were free-to-air via satellite, except 4Music, which was free-to-air. In 2018, 4Music changed its logo to include the current Channel 4 logo, mixing '4' and 'Music'. This change also happened on his other channels.[5] From 16 April 2018, the broadcaster will now show more entertainment programming, as well as archive programming, as well as archive programming from Channel 4, to coincide with the switch of EPG numbers to Sky on 1 May 2018. This is because BBC Scotland is on Channel 9 in Scotland, while BBC Four is on Channel 9 in the rest of the UK. On 26 January 2022, in a similar channel change - to free up 23 LCNs across the country for the relaunched BBC Three - 4Music switched again to 31 (with E4+1 again taking over 30). The transmission of 4Music and other channels operated by Channel 4 was affected by the activation of Red Bee Media's internal fire system on 25 September 2021. From 27 September to 6 October 2021, 4Music aired an episode of The Box instead of the usual scheduled broadcast, with an EPG warning of technical issues. The simulcast was changed to Box Hits on October 7, 2021[8] and 4Music videos. Long-form programs returned to the channel on 9 November [9] starting at 12:07 with "Couples Come to Dinner with Me". The last song played before the full-length program resumed was "Remember" by Becky Hill and David Guetta. On 13 June 2022, Channel 4 announced that the Channel 4 Music itself will move into the Box Hits slot, effectively replacing the network. With this change, the station became a full-fledged music station again, just like its sister music stations. The last music video to air on 4Music on Freeview before the channel moved to E4 Extra was "House on Fire" by Mimi Webb at 02:57 on 29 June; After a late-night commercial (ended by a short 4Music report), E4 Extra began airing at 7:00. Their debut album Mazhathulli was released in 2007. After the album's release, they entered the Mollywood film industry as music directors for the film Juzt Married. The group mainly focuses on folk, melodic and Indian popular music styles. They are also the founders of the recording studio NHQ (Noise Headquarters) in Cochin. The band rose to fame with the film Oppam released in 2016. The song from the movie "Minungum Minnaminunge" went viral on social media[1] and YouTube[2]. Earlier Days In 2003, Biby and Jim started composing together. They started playing Christian religious songs. Both were members of the Jacobite congregation of Azhakam St. Mary's Church. Together they recorded their first dedicated album Karunardrasneham in 2003 which marked their debut. They soon joined a religious band formed by Sanil Peter where they met Jimson James (CURRENT 4 MUSICS) who came up with the band of Eldhose Alias and Justin James (brother of Jimson James). They started performing in and around Ernakulam and also appeared on Kairaly Channel's CONFUSION in 2004, which was their first television experience. Later in 2006 the band broke up with Jim and Jimson going to Ireland to study, Justin to New Zealand and Eldhose to Bangalore. These days honeyfully active in music, composing for 2 religious albums (SAMARPPANAM, UNNI GANAPATHY) and also joined Mr. Binov and Babu Varghese (member of DAVID's HARP) and started doing karaoke shows, 2008-2015 In 2008, the group reunited and released their first music album "MAZHATHULLI". During Mazhathulli, Jim-Bibbi-Eldhouse-Justin wrote all the songs on the album, with 8 of the 10 songs written by Bibi and Eldhouse. This gave them the idea to work together as composers, where these guys realized their views on music and their future life in music. So they parted again. In 2010, Jim completed his studies at the prestigious Windmill Lane Recording Studios/Pulse College in Ireland, where Jim opened NHQ Studios in Panampilli-Nagar-Cochin, marking a turning point in the life of 4 Musics. They had the opportunity to perform on the Asianet Youth Club program where the group got together and created some of their own songs. Program director Jibin and sound engineer Mr. Soni noticed the talent of the boys and recommended them for their first film "JUZT MARRIED" in 2012, directed by Sri Saiyan Johnny and written by Benny Estak. Unfortunately the movie is out. only in 2015. 2012-2015 was an extremely difficult period for the guys, in which it is again very difficult for them to move on. 2016-present At the end of 2015, they got the opportunity to meet Anthony Perumbavor and thus opened the door for OPPAM, Mohanlalu as the main character directed by Sri Priyadarshan under the big AAshirvad Cinemas banner. The film was released in 2016 and the songs from the film have been scattered all over the world. 4 Musics has received numerous awards for songs in Oppam, followed by the 2017 hit VILLAIN with Mohanlal, and now in 2019 two super star/director Prithviraj Sukumaran. When Juzt married a music director, it was called THE FOUR, but in the Oppam era, they changed the name from THE FOUR to "4 MUSICS". Eldhoz worked in Saudi Arabia during Oppam and joined the band in India in late 2016, but Justin still lives in New Zealand and 4 Musics' musical journey continues.
