Remote control kenwood kr-v7030

Kenwood kr-v7030 remote control.

Replacement Kenwood Remote Control RC-7040 (RC7040) - 100% 1: 1 replacement of the original remote control. The remote control is dedicated to Kenwood device models: KR-V6030, KR-V6050, KR-V7040, KR-V8040, KRV6030, KRV7040, KRV8040, KVR6050. (You may not have listed all compatible models. If you are not sure, just give us the model of your device (with online chat, email), we will check quickly, check if it is compatible. Verified compatibility is expired by us.) This remote control The control is available in the premium brand Remote Control (shown on the left). We guarantee that the remote control will perform all functions of the original RC. It is not a universal remote control, but dedicated for the models listed above. Without configuration, you don't need a pairing, just insert the batteries and it works. Look at the function map in the product image to make sure all the functions are available. This is the dedicated replacement remote control (not a generic "Universal RC"). It performs exactly all the functions of the original RC. Guarantee of 24 months. The user manual with the functions of the button is included. Additional function: This remote control can be programmed on 1-4 devices (4 in total). You can control several different devices with the same remote control. If you write us your other device models in the order comment, we will program the driver for all of them. For this service, the additional service fee of EUR 2 will be charged: see details in case you replace your home electronics in the future, we may reprogram this driver to get absolutely any new device (s). The general remote control will outlive your existing device! Image not available FORTCOLOR: To view this Flash Player video download, I managed to pair my GS + Without too much trouble, and à €
