A new trailer for the highly-anticipated Season 6 of My Hero Academia has dropped, giving fans a chance to hear a snippet of the theme song. The third trailer was released on TOHO's YouTube channel and features the opening theme song "Hitamuki," sung by 4-member Japanese rock band SUPER BEAVER. The band has performed the opening theme songs for various popular series like Haikyuu!! To the Top Part 2 and is most well-known for singing the ending song to the fifth season of Naruto: Shippuden. The trailer shows all of the heroes coming together to fight against the villains from the Paranormal Liberation Front, led by Shigaraki. Studio BONES will be returning to animate Season 6 of My Hero Academia, with Kenji Nagasaki retaining his role as the director. Season 5 premiered in 2021 with 25 episodes. The studio has not yet announced the number of episodes in Season 6. The fifth season of My Hero Academia ended with the Meta Liberation Army joining forces with League of Villains after Shigaraki defeated Re-Destro, thus creating the formidable Paranormal Liberation Front. Thanks to Hawks, who has gone undercover, the heroes have a better sense of who the enemies are, but don't yet know that Shigaraki has undergone a significant power-up. My Hero Academia Is Taking a Dark Turn The superhero series, written and illustrated by Kôhei Horikoshi, follows Izuku Midoriya, a young Quirkless boy who dreams about becoming a hero. After inheriting the world's greatest hero All Might's Quirk, he goes into training, but the world is thrown into danger when Shigaraki, whose mentor is the arch nemesis of All Might, arrives looking to wreak havoc on the hero society. The manga series is ongoing, serialized in Shōnen Jump, and can be read on Viz Media. Both the upcoming new season and current manga arc are on dark trajectories, with the most recent chapters of the manga showing the heroes struggling to hold their own against the villains while one beloved hero appears to be down for the count. For those who want to catch up on what's happening with My Hero Academia so far, the first five seasons can be streamed on Crunchyroll, along with the OVAs. The series also produced three movies: My Hero Academia: Two Heroes, My Hero Academia: Heroes Rising, and most recently in 2021, My Hero Academia: World Heroes' Mission, which is now the franchise's most successful theatrical release. Season 6 will premiere on Crunchyroll on Oct. 1. Source: YouTube The Fall 2022 anime season is only a couple of months away, and it's loaded with fan favorites. My Hero Academia returns for its sixth season, and the world of heroes seems to be shaping up for some of its biggest battles yet. My Hero Academia has become one of the biggest shonen powerhouses in the world, beginning with the serialization of the manga in 2014 and aided by the debut of the anime in 2016. From small-time hero business to battles that change the landscape they take place in, the intensity of My Hero Academia has been increasing with every arc. Now, with the war against the Paranormal Liberation Front looming, here's what fans should know about the newest season of My Hero Academia. The Plot of My Hero Academia Season 6 The world of My Hero Academia is populated by individuals with fantastical abilities known as Quirks. Those who seek to use their Quirks to help the general population are known as heroes, while those that work against them are villains. The series follows protagonist Izuku Midoriya on his journey to become the world's number one hero. Though Izuku was born Quirkless, he was given a chance to inherit the Quirk of the current number one hero, and his idol, All Might. After All Might passes on his Quirk, One for All, down to Izuku, he joins UA High School, Japan's preeminent hero academy, where students learn to become professional heroes. Season 6 picks up right where Season 5 left off. Pro hero Hawks, undercover in the shadowy Paranormal Liberation Front, has finally been able to put all the pieces together from his investigation into the villainous faction. Thanks to his intelligence, the heroes are finally able to confront the Paranormal Liberation Front in an all-out war, which will surely alter the world of My Hero Academia forever. My Hero Academia Season 6's Trailer The second trailer for Season 6 was released in the middle of June, a few months ahead of the fall anime season. In the trailer, fans get a preview of some story developments, as well as many of the series' most popular characters showcasing their abilities. Unbeknownst to the heroes, main antagonist Tomura Shigaraki has received a massive power up, transforming him into a threat the likes of which have never been seen before. Despite now knowing where the Paranormal Liberation Front and their commander are located, the heroes have no idea what lies in store for them. My Hero Academia Season 6 begins airing on October 1st in Japan, and will be available in the West on Crunchyroll with English subtitles. Other News To Know For My Hero Academia Ahead of the release of Season 6, My Hero Academia has released two OVAs as part of season five. The first OVA, titled "HLB" features a baseball league composed of pro heroes. A baseball league in the world of My Hero Academia means, of course, that the usage of Quirks is allowed during play. The second OVA is titled "Laugh! As If You Are In Hell" and follows Izuku, Bakugo, and Todoroki during their time at Endeavor's hero agency, as they track down a graffiti artist known as "Smiley". While they were going to leave this relatively harmless villain to other heroes, things get personal when Smiley draws on Endeavor's house. What should be a simple task proves to be rather difficult, as it turns out Smiley's Quirk forces anyone that stares into his eyes to laugh uncontrollably. Both OVAs are available for streaming on Crunchyroll. Fans must wait until October to see the My Hero Academia Season 6 premiere. During the Hero Fes 2022 that went down on Sunday in Tokyo, it was announced that My Hero Academia Season 6 would premiere in Japan on Sunday, Oct. 1. American fans can also rejoice for the news since Crunchyroll will likely simulcast the episode on the same day in the U.S. The adaptation of the manga written and illustrated by Kôhei Horikoshi ended its fifth run on Sept. 25, 2021. The upcoming season will bring new adventures for Izuku Midoriya and his superpowered friends. Producers also debuted a new visual, check out the My Hero Academia Season 6 poster below: RELATED: My Hero Academia 2-Episode Anime Special Gets New Visual Ahead of the My Hero Academia Season 6 premiere, fans can watch the upcoming two-episode original video animation, which will debut on Crunchyroll on Monday, Aug. 1. Shishido is a lion-themed professional hero, while Mr. Smiley is a vandal who scribbles on things for artistic purposes. For those who might have missed the train on My Hero Academia, the series is available to stream in its entirety as of now. Currently, all 113 episodes of the anime are available to stream in both subbed and dubbed formats on Crunchyroll for those looking to catch up. RELATED: My Hero Academia Battle Royale Announced With Gameplay Trailer My Hero Academia began as a manga series written and illustrated by Kôhei Horikoshi. It was first serialized in Weekly Shonen Jump in 2014. The anime television adaptation made its debut in 2016. Both are still ongoing. Fans have been eagerly waiting for the comeback of My Hero Academia ever since season five of the popular series didn't meet their expectations. As the final trailer for season 6 dropped today, fans on Twitter didn't hesitate to point out the incredible efforts made by studio BONES. Most fans believe season 6 could finally restore My Hero Academia to its former glory. This seemed like great news, especially after how they butchered the animation in season 5. While some fans still seemed pessimistic regarding the future of the series, others pointed out that My Hero Academia season 6 could finally rebuild the hype around the anime. Disclaimer: This article reflects the opinions of the writer. Twitter gets a ray of hope as My Hero Academia season 6 final trailer drops Animation Dabi in My Hero Academia season 6 trailer (Image via BONES) While the final trailer starts in the same vein as the previous ones, key visuals and dialogs were revealed this time. Fans seemed to be pretty fascinated by the animation quality in these trailers. Manga followers care deeply about the animation style, and thankfully, studio BONES didn't disappoint with this new release. The pressure put on season 6 to be a success was immense after the entire season 5 fiasco, which left fans expecting and desiring more from the shonen anime. Fans eventually realized that studio BONES had done justice to the villains by making them look more menacing. Earlier, My Hero Academia faced a lot of hate for its bleak animation style in the My Villain Academia arc, but this comeback surely did justice to the series. As for the events in the manga, the majority of fans agreed that if done properly, season 6 could potentially surpass every other season in the series. However, the anime had one of the most toxic fanbases, and other communities seized every opportunity to troll them. Finally, fans enjoyed the opening song incorporated into the trailer. Excitement was in the air as Hitamuki by SUPER BEAVER was selected as the opening song of the new season. On the other hand, SKETCH by Kiro Akiyama wasn't added to the trailer as it happens to be the ending song for this season. SUPER BEAVER's Hitamuki did seem upbeat, which would be perfect as an opening song for shonen anime. In contrast, Kiro Akiyama's SKETCH would probably be on the mellow and slow side. Mha season 6 looks promising I swear if bones drops the ball on this they'll never be forgiven Mha season 6 looks promising I swear if bones drops the ball on this they'll never be forgiven However, some fans are still immensely skeptical about season 6. One can't even blame them, given the blunders in season 5 and the toxic fandom community of the series. In addition, many still believe that the anime's mass appeal had its roots in childish tones and themes. Final Thoughts It is now September 1 here, which means there's one month left before MHA Season 6 airs! It is now September 1 here, which means there's one month left before MHA Season 6 airs! My Hero Academia fans deserved a win and studio BONES tried to deliver it to the best of their capabilities. While the community's burning passion was reignited, others didn't share the same enthusiasm. They were highly skeptical, and some were even considering dropping the anime altogether. However, one should give the hard-working animation studio a chance to redeem themselves. With its widespread appeal, My Hero Academia has been one of the best shonen anime in recent years, and skepticism won't change that fact. Edited by Priya Majumdar
